I like the idea but do we really need more retail. We already have so much open retail. The apartments are needed!

The concept appears to be extremely dense. The buildings are very plain and without pleasing design features. There is no open space or green space. Would prefer less dense and higher building with green space. Must require sidewalk along Rand and burying of utility lines along Rand road. Looks like a lot of traffic onto Rand or through existing parking lots. Lake Zurich can do much better than this proposal. The property has been vacant for a long time but this proposal is worse than the existing condition.

Property is not the place for large rental unit buildings. The area is mostly retail and should remain retail, possibly more favorable is a grocery type store to provide competition to the two jewel stores or a hobby type store. The traffic in the area is extremely congested now, I cannot imagine what it would be like with the numerous proposed rental units. I would certainly hate to live behind those units.

A better traffic flow within the parking lot is necessary. Currently, traffic comes from many directions and this development would warrant additional traffic study.

Also, is the ground stable enough to warrant building underground parking? Didn't that area used to be a bog??

What studies have been done to indicate there would be minimal vacancies? LZ is a family type village, and building 1-3 bedroom apartments may not attract our most predominant resident. Having a huge complex sitting vacant won't solve the problem with that tract.

Great idea! It will hopefully promote redesign and upgrade of existing nearby businesses to create a more "walkable" environment of higher end shops and retailers in that area. Right now it, and other parts of lake zurich look like a wasteland and it's quite depressing.

I cannot understand why the village would mix residential buildings into an area zoned commercial. It seems that such apartments would be hard to rent, smack in the middle of commercial businesses.

Do we really need to squeeze more people into this village? I think we have enough apartments/homes/nursing facilities. How about some upscale restaurants or musical clubs. You were going to allow the same thing on the Hackney's site. Enough already!

More apartments only contribute to the congestion on Rand Rd - I think a better use would be to offer more business options to the residents of LZ such as restaurants and shopping. We need more options for people to want to stay in LZ.

Currently the old Kmart parking lot provides overflow parking needs for Paulus Park for special events. From the site plan it looks like this option will no longer be available?

Comment 2 - Very little green space on the site plan. I am not sure I would want to live in a dwelling that was all asphalt and brick?

Comment 3 - I think anything more than 1 story in the current parking areas would hender site lines in the area.

It seems that the area would be way too crowded with 3 apartment buildings. There are many empty stores in the strip malls around that immediate area, I'm afraid it would be hard to occupy them and look like another ghost town area of Lake Zurich. That lot is also used for overflow for any of the Paul Park activities. Thank you.

That is a very undesirable option. I can't see a residential building in the middle of 2 strip malls. That area has to much vehicle traffic to add that much more. That is a decision best for the builder not the community.

I am concerned about the type of tenants that a large number of small, cheap apartments might bring. This opens the door to increased crime and potential gang activity. We have a gem in Paulus Park just across the street and I would hate to see the quality of the park degraded by any of these activities. I take my children to the park often in the summer.

I think this is a terrible idea - we do not need more housing that will burden our infrastructure, specifically schools, police, firefighters, public services. This does not generate revenue. We need more business and should stop turning down viable businesses that can generate millions in taxable revenue. The structures are too dense and not attractive. Bad location - adds to Rand Rd congestion. Start doing what you were elected to do and develop business and the downtown.

I am pleased that there is finally some action to consider development of this property. I know where the property is and in my opinion there will be very limited intrusion into the residential neighborhood behind it. After all the few residents close to it had a full functioning kmart before. This seems a good fit for the property, the owners and the residents.

I would like to see something fine with the old KMART shopping area, however, I do not think a 4 story structure is the right answer. Personally, I wouldn't want to rent an apartment in the middle of a parking lot. I'm not sure apartment rentals is a good idea either.

It would be interesting to have a residential property in this location,

On a positive outcome it could draw young professionals, improve local business and culture in the direct area, and connect another population to Paulus Park.

On a negative outlook it could become a place that draws crime, pushing away business and reducing property values.

Help us understand which outcome is more likely?

Some Questions to help:

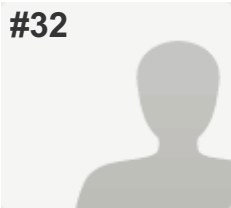

1 - Would there be a connection between this new development and the pleasant road community, via walkway or road?

2 - Many vehicles use the front of the KMART to get to and from shopping center where the Jewel is at. How would that be change to make a positive living experience and improve safety for residences.

3 - What is the impact an apartment residence on a main thoroughfare would have on crime in the area now? How about 10 years down the road? What kind of crime statistics do the developer's existing, similar projects have?

I personally think this is a very odd place to put apartment buildings. I have always thought the holiday in was in an odd place too. I agree that the building is an eyesore, and something needs to be done with it, but I think better business would come out of it if the building was turned into something the teens of lake zurich could enjoy as well. A store, or a few stores. Deer park has buzzing business opportunities with all of the store attractions, and we could bring a bit of that to lake Zurich to open up a wider range of opportunities to a wider range of people.

I think it is great that there are discussions taking place of what to do with the dilapidated property. I don't think that location is appropriate for apartments. Rand Rd is the retail corridor so it is more appropriate to have retail in that location.

The only part that sounds risky is the development of Apartments rather than owner occupied housing. The turn around of residents, if not managed well, may be troublesome in maintaining the integrity of LZ.

I do not like the idea of mixing the zoning. The area is commercial and placing residential in this area would look out of place and certainly not in the "style" of Lake Zurich. All of our residential areas are segregated from commercial areas, which is a great aspect of our community. B

Why would we be mixing residential and commercial properties in a commercial setting? This doesn't sound like the best opportunity for the land use or Lake Zurich. Add a bunch of retail and/or restaurants and make it more of a destination for people to drive to.

The concept plans look good. I would like to bring up the concern about getting through the lot. I live in the neighborhood off of honey lake and I frequent all the businesses in this area by driving through the empty lot. For example Jewel then A1 cleaners. I think its important to a lot of residence and the businesses in this area that people will still be able to drive across this property without issue or delay. Otherwise it will take away from these businesses if people have to turn left on rand then wait again at another light to turn left into the other lot. As it is there is no good way to leave jewel if you are heading north. If this cut through is conjested or eliminated that will hurt those businesses. Also what about Paulus Park parking for large events. That lot is always used, even for small events such as the farmers market.

Developing the Kmart property, which has been an eye sore for years, would be a great thing. I like the idea of higher-end rentals with retail space, much like other towns have such as Palatine and Arlington Heights. The apartments would have access to stoplights that are already present, which is great. Being across the street from the park and the lake, I think this space should be considered for luxury apartments. Many young professionals would like to stay in the area, but do not have many options that provide for a nice condo-like rental and a dash to the coffee shop downstairs before heading to the lake or to work. I think this would be an asset to our area, and provide a housing option that Lake Zurich does not currently have.

The plans as presented are terrible. No open space for resident recreational use. Inadequate parking. Going to put too much pressure on Paulus Park. The design of the building(s) is just, plain UGLY. Looks like a factory. Did not think anything put there could look worse than the abandoned K-Mart but this sure does look a lot worse! Come on! We need something ATTRACTIVE for the Route 12 corridor for a change! I am sure someone can come up with a plan that looks welcoming and attractive!

The Village of Lake Zurich needs more things to do. To be able to bring in more income especially from the surrounding townships.... Maybe a roller rink, or some type of specialty shops that would be unique to LZ that would better utilize that space.

We definitely need something to fill this empty space after so many years, but I do not think another living facility is what this town needs. Why not make it an indoor pool and recreation area? Something we don't need a membership to, like at the YMCA. Maybe attach a decent restaurant to it. Make it a family fun place; pools, arcade, mini golf, video game slots, etc. Give people something to do around here

I think it's a good idea. Lake Zurich doesn't really have a lot of nice rental places and the shops underneath I feel is a great idea if you fill them with useful, nice,shops I am all for redoing that property as I live nearby and drive by it almost everyday. It is a eyesore and a embarrassment to the Village

I'm unconvinced that there is an existing need for this housing and concerned that this is targeting a lower-income demographic. I think the Village is missing an opportunity to field proposals for more creative uses of this property that would encourage traffic into Lake Zurich from nearby communities and increase Lake Zurich's standing in the area overall.

**Q2: What feedback would you like to provide the Village on the proposed redevelopment of the former K-Mart property at 225 South Rand Road? The concept plans can be viewed at LakeZurich.org. (These comments will be shared with the Village Board and Planning & Zoning Commission).**

I understand this property has been vacant for years and it has been difficult to obtain a willing developer, but this proposal may not be the best fit for this location. Many neighboring towns do not know that Lake Zurich has a downtown... they believe that our downtown is the strip of malls on Rand Road including Paulus Park across the street. This is a prime spot to put something bigger and better that attract outsiders and residents alike to participate and get to know our town. With Paulus Park across the street, this location may be better used as another community area. I firmly do not think another strip mall below residential apartment units is the best answer. Just a couple hundred feet down from this location are more strip malls that are struggling to maintain renters and enough customer traffic. I also do not think residents want to live in an apartment next to busy/noisy Rand Road. Especially with a "less than fancy" building design in the middle of a parking lot next to a busy highway. Please, Lake Zurich needs and deserves more. We are a community of families and friends. Please consider somewhere these families and friends can meet, have fun, make memories and enjoy each other and our town.... not another potentially vacant strip mall and non-occupied rental units. Thank you for your time.

Please don't do it, we don't need anymore apartments in LZ. How about an ice skating rink. We have to travel to palatine or Vernon hills to skate. Something that will benefit the current residents. There is nothing to do in this town during the winter.

We have enough space for residential elsewhere, shouldn't this stay a commercial property? What is the property zoned as? I hope we're not going to ram through a zoning change just to pander to a developer. Also, I don't like the fact that it would be rental property at the expense of retail or amusement that would benefit all of us instead of hurting our schools (one of the reasons we moved to the area).

Redevelopment of Former K-Mart Property on Route 12

**Q1: Which of the following best describes you? (Check all that apply)**

I am not a Lake Zurich resident but am involved in the community

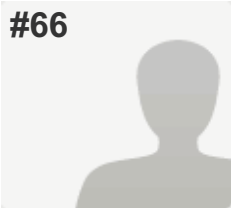

Other (please specify)

I am a previous LZ resident with all of my family still there. I visit frequently.

**Q2: What feedback would you like to provide the Village on the proposed redevelopment of the former K-Mart property at 225 South Rand Road? The concept plans can be viewed at LakeZurich.org. (These comments will be shared with the Village Board and Planning & Zoning Commission).**

Additional restaurants, stores, or a roller skating rink or pool would be good. Lake Zurich has increased in population over there years, but I'm not sure additional housing is needed.

Terrible idea having apartments there. No outside space for all those residents, except to overcrowd existing public areas. Area needs to be redeveloped but not at the cost of low income apartments that already exists in that area. What does the area gain from these apartments?

I beg you do not waste this perfect space on a useless apartment building. This plot is perfect location and has a huge parking lot area which would be great for any business. To put more useless apartment building up would just look tacky. Please rethink this idea, many of my friends and family feel the same way. Do not ruin this space like you guys ruined main street.

Those housing plans seem geared towards low cost housing. Lake Zurich has been trying to redevelop it's sense of community and has been making the area more beautiful. Those plans set any work backwards. As a resident of Lake Zurich I have to spend my money elsewhere to entertain my family. We bowl in other towns, swim in other towns, often eat in other towns, and see movies elsewhere. A place to do any of those things here would be lovely and help with the local economy.

I am so glad that this property is being redeveloped. I think the proposed apartments/retail is a good use of the space. It would be good to have more rentals available for those who want to live in our beautiful suburb, but can't afford to buy. Also good for newlyweds just starting out. I am all in favor of this proposal!

While I'd surely like to see this property utilized, I feel the plan just crams a maximum amount of rental property into a space too small for it. In addition it's unattractive to look at driving by daily, it could look a lot better.

While I believe the former K-Mart property needs to be dealt with (currently an eye sore), I don't believe it should be rental units. Rental units don't seem to fit in that area. Also, the amount of people potentially able to live in these rental units will cause increased/heavy traffic onto Rand Rd, which is currently already a highly congested area.

I think that having residential as well as commercial will be fantastic for the village. Having an area where residents can walk to shop is a great plan.

Lake Zurich needs this type of development. This is not the only "eye-sore" parcel that creates a feeling of depression when people drive through our town. I have high hopes you will be able to meet this developers requirements and not repeat the typical contradictory directions given by staff, board and the vocal minority. A survey of builders and developers that have tried and even slugged their way through working in this town would be very revealing. PS - without confidentiality, no one will tell you the truth

All I see are building exteriors and no information on how many rental units there will be. Sizes of the units is available, but also no pricing for the apartments. How can anyone give feedback when there is not enough information? Also, what kind of 'breaks' are we talking about giving the developer? If we get more residents, we will put more burden on our schools and if that comes at a further cost to LZ residents for tax break incentives, then we're screwed.

I do not think that rental units are the best solution for the abandoned shopping area. At the very least it should be a mixed use as rea with stores and restaurants on the ground floor. Why not try to get Lowe's or At Home, Hobby Lobby or another large retailer to take over that space.

Apartment type housing there does not seem to fit that space and the residents of LZ are aching for some type of family friendly space. Restaurants (Olive Garden) or indoor recreational space. Love the idea of a pool or ice skating. Please consider something for the residents already here waiting for LZ to be a better community!!

Its nice to see that some potential movement on the property is being considered. Would be nice to have a big box take the space but evidently a deal has not been able to be made. Putting high end renters walking distance to the surrounding commercial developments should help get some of the vacant commercial space filled at the adjoining centers. Lets see what the developer brings back to the Village after hearing the concerns from the board.

I think that the idea of housing plus retail in that location is a great idea. Not only will that behemoth eyesore finally be eliminated, but the new population and retail area can only breathe new life into the surrounding retail area, including the barely thriving strip mall that includes Sushi Kushi, BellaLukes, and Napa Auto Parts, as well as the empty spaces commonly surrounding Learning Express near the newer Jewel Grocery.

I would like to understand the plan better. How will this effect taxes and school systems? Why are you choosing housing over business, etc? I'll be watching this closely from here on out and would like to be informed of the "whys" and "hows"

84% lot coverage, right up against Rand Rd, and they're calling it "Garden Homes"? Where's the garden?

This seems like very high density housing, and the boxy, flat architecture is just hideous.

I am very much in favor of development of that property. 2 & 3 bedroom apartments sound nice. I would not be in favor of low-income housing at this location.

The K-Mart property has sat vacant since I have lived in Lake Zurich, over a decade, so I want to see the property put to use as much as anyone but I would rather wait for the right opportunity than put something in place that is ill conceived. There is little to no market for apartment living in a family community and retail is a better fit for the area than apartments.

The buildings are four stories tall, one floor taller than the area needs. The buildings look like a prison or factory, extremely unattractive. If built as proposed it will create somewhat of a blight to our Town.

In time it will depreciate the entire area if not done upscale enough or in a visually appealing manner. This piece of land is very important landmark of Lake Zurich's image as so many people travel on 12 each day. I also did not see how in the plans how the absence of parking for community events at the park was going to be addressed. If parking becomes an issue for the events it will also negatively impact Lake Zurich's image and pride in our community.

As a real estate agent I think the village needs to look at what the proposed rent will be and the current vacancy of the existing apartments in the area. I personally think that apartment will put too large of a burden on our schools that are already at near capacity and that you should get the opinions of the school administration as they also have big changes approaching (how they will facilitate full day kindergarten). I also think the village is selling itself short the building needs to get more reasonable with asking price to attract more developers.

These buildings are ugly. If apartments have to go there (which I don't think we need more of) consider redesigning them. A pool would be so much better use of this space- why doesn't lake Zurich have a public pool? We are pretty much the only community around the be suburbs who doesn't.

Rentals. No thanks . Who would want to rent an apartment on rand road right in the middle of strip malls? Not a good idea. It says it has space for retail? We cannot even fill the stores we have now in LZ. Next thing we will hear is another mattress store will go in the retail space! Not a fan of the plans.

I would love to have something there that the kids in Lake Zurich could use. A pool, ice rink, roller rink, laser tag, anything that the kids in our town could use. I read an article that the owner of this property is who is choosing to make this apartments, which makes sense for them. I'm not sure how accurate the article was but if that's the case it makes me nervous to have apartments there. My thought being, I'm sure the village has not been happy with the empty store and has probably presented many options to this owner. I'm guessing that other companies have probably over all these years approached the owner to purchase the property. Since this owner has done nothing it seems they do not care about the effect it has on the Lake Zurich Community. Which makes me think they are building the apartments to generate their own revenue through the rental income. It

As a real estate agent I think the village needs to look at what the rents would be and what the vacancies are of the apartments in the area we don't need Lake Zurich to become like the Route 12 corridor of Palatine and Arlington Heights! Plus I think apartments will create a burden on the already taxed school district I think the Village needs to talk to the school district administration about the schools and their capacity from what I have heard as a district 95 parent is that most of the schools are already filled to capacity and that is why we aren't doing full day kindergarten. Apartments will not create the property tax revenue needed to sustain our schools. I also don't think the retail proposed will be the best sales tax revenue possible I think the developer needs to become more realistic with their asking price to attract more developers. Until then this is a failed plan and would be a set up for more vacancies in the district

While I am happy that something other than an abandoned building will occupy he spam I am concerned about rental units and more residential. Lake Zurich needs commercial family focused businesses. Restaurants, aquatic center, etc. i also feel the apartments will be out of sorts on rand road. I just don't want it to turn into anothe stretch of rand rd in palatine. If hey are rental I certainly hope they will be luxury rentals.

This apparently fills the existing property with building or parking leaving no green space for residents. Additionally, the impact on District 95 could force a redistricting of the elementary and middle school populations by slotting such a dense population into the existing school.  
As this is being viewed as a gateway property, this is not the most attractive design either.

Please do not build anymore multi family residential units! There are still empty ones by the lake. We want to build lake Zurich up not continue to drag it down. Obviously the empty building is an eye sore, but the village needs to stop allowing strip malls to be built and by doing so encouraging the other ones to stay empty! The corner of 12/22 shouldn't get any more strip malls either! Fill the empty space in all the other ones.

I don't think residential buildings mesh with the existing surroundings where there are mainly stores. After looking at the plans, it seems clunky and out of place, a rental building jammed into the space without any cohesion to the surroundings. I would prefer to see the building space to be utilized as commercial only.

I am concerned that apartment buildings right off of Rand Road would not be appealing for people to rent due to the location. How would that impact the existing hotel that is behind it? Bringing in a business that would provide entertainment/family fun would be a better use of this location. Arcade, waterpark, ice rink, sports facility, decent restaurants would all be potential draws to the existing community. Just don't bring in another Mattress store.

An apartment building is a horrible idea for this property. Right next to a hotel. What kind of residents do you think this will attract? You turn down a Harley dealership, but now are going to allow apartments????! Certainly there can be something better done with this land that will add to the desirability of this town versus creating another eyesore amongst all the others, downtown included, that exist in this village. How about trying to attract a large big box store, i.e., Lowe's or restaurants that will bring more money to the town versus everyone having to go to Deer Park? What's next, Frederick's of Hollywood across the street from Lover's Lane???? I guess at least it's not another mattress store!!!!!!!!!!!!!!!!!!!!!!

That location just doesn't make sense for a residential area. Our family is deeply involved with youth hockey and feel that location would be the ideal location for an ice rink. Lake Zurich High School has a Hockey Club, but we have no rink, so they travel out of town. Youth Ice Hockey is a rapidly growing sport. Area rink Hockey programs are so packed, scheduling ice time is very challenging. There are numerous children residing in Lake Zurich who travel to Crystal Lake, Vernon Hills, Rolling Meadows, etc that would be happy to see a quality ice hockey program established in Lake Zurich. We have heard it time and time again from numerous families how they would love to see that location turn into an ice rink. It is an ideal location for hosting Hockey tournaments, a lucrative endeavor, as there is a hotel next door, restaurants within walking distance, etc. Ice Rinks are often run/owned by private individuals that then "sell" the ice time. Other rinks (such as Rolling Meadows) are operated through the Park District. Something that should our Village undertake, could be a money producing program.

Too dense, no open space. 2 & 3 bedrooms will probably house a child or 2. Where will they play? On Rand Road? Kids don't always have an adult who can walk them across the street to play in the park. Are any units considered "affordable housing" or Section 8 eligible?

I would like to see the space used as a facility that will provide entertainment to the residents of Lake Zurich. Possibilities include and indoor water park, roller rink/ice rink, game center/restaurant like Dave & Buster's, or a laser tag arena. If these endeavors are too ambitious,I would also like to see a family style restaurant and another club/bar restaurant similar to Bobbers. Our residents travel to other suburbs for all of these types of amenities and it would be nice to have them in our own village. I don't support apartment buildings on the site. That may be a lucrative proposal for the developer, but it does little to enhance the recreational opportunities of the village.

No way is this a good idea. Why would you shoot down every other proposal from this land owner and then agree to apartments (i.e. Best Buy). Why would you agree to place apartments in the middle of a commercial area. We need to attract more businesses and restaurants to Lake Zurich to raise more tax revenue, not an apartment complex. We already have enough eye sores around this village (i.e. downtown, corner of Rt12&Rt22 empty buildings)

I think that we have plenty of buildings that rent out apartments and townhomes. Why don't we bring to Lake Zurich things it doesn't have. That building is huge what about making it an ice arena, outdoor pool like Hawthorne Woods. Our residents are forced to always go outside Lake Zurich for lack of being able to do things in our community. Maybe even a restaurant or two. Again people travel to Deer Park Mall they have a lot of food choices to offer. How about an indoor area for teens and younger. Such as a trampoline place or roller rink or all in one fun plex?

**Q1: Which of the following best describes you? (Check all that apply)**

I am not a Lake Zurich resident but am involved in the community

**Q2: What feedback would you like to provide the Village on the proposed redevelopment of the former K-Mart property at 225 South Rand Road? The concept plans can be viewed at LakeZurich.org. (These comments will be shared with the Village Board and Planning & Zoning Commission).**

Do not allow any development of mid to low end housing or section 8 or HUD. The people attracted by such housing will drive away any and all shopping by people from Biltmore, North Barrington, Winstone, Lake Barrington, Deer Park, Barrington etc. There would be increased crimes of all types. The people from that type of housing that would walk to the park across 12 would take over and many families would not use it anymore. Look at the area around 12 and 68 for an example of what you are in for. In other words, people will be afraid to use shopping or parks near that area. Get some good restaurants like Golden Coral or Outback or Cheesecake Factory. Remember you can take a good village downhill very quickly but it will take years to build a good neighborhood and reputation from a bad problem ridden neighborhood. Be aware you may need to hire more police and get ready for gang problems. Also look at the traffic pattern in that center which already has people going every which way. The add maybe 350 cars at 2 per unit (plus visitors) considering 175 units. But then you won't have to worry about shoppers traffic, at least ours. You are already adding congestion north of Kohls and the project for Hackney's par like area was atrocious.

My family & I moved to LZ 5 yrs ago with promises of retail development from the village. We are happy with our neighborhood & home, but are greatly disappointed in the lack of downtown & Rand Rd, etc retail development. So many mattress stores! Wish we didn't have to leave our village to do much of our shopping. Many empty eyesore storefronts. Now I hear that the board made it too difficult for U-Haul to open here. So frustrating. It would be wonderful to have a Hobby Lobby and other needed stores. Please be more flexible and proactive.

The plan appears to be too dense and close to hwy 12. With the mix of residential and commercial I am also a little concerned what this will do to traffic on that area. On top of the strain this will put on public services. Especially if it doesn't generate tax revenue greater than the rate it utilizes it. Are there stores already set to take the retail space? Or is this going to create more empty store fronts waiting for a tenant? We appear to have plenty of those already.

What is the plan for handling Paulus Park overflow? That will have to go somewhere. How does the village plan to prepare for that?

I love it, I'm sick of looking at that vacant lot and eye sore of a building. Thanks.
