

Lake Zurich Thru Your Lens

Show the World What Lake Zurich Means to You

Over the next few months, the Village of Lake Zurich will be updating its Comprehensive Plan, a tool that addresses the changes and conditions in the physical development of the community.

The Comp Plan was originally created in 1988 but was most recently updated in 2002. Over the next few weeks, we are seeking public input into Lake Zurich strengths, weakness, opportunities, and threats. Sometimes pictures are the best way to show what something means to you.

Using pictures, show us what Lake Zurich means to you.

The Village invites local shutterbugs, professional and amateur alike, to help capture images of the Lake Zurich community. Pictures will be featured on website pages, newsletters, magazines, and other publications by the Village in the future.

The Village is launching “*Snapshots of Lake Zurich*,” in hopes of capturing what it means to live in this wonderful community. Photographers of all ages and expertise can share their vision of Lake Zurich as seen through their lens. Be it a shot of a Village landmark, a trip to Breezewald Park, or an attractive image of peaceful wetlands, show the world what it means to you to live in Lake Zurich.

Submit your photographs individually via the Village’s online Dropbox [by clicking here](#).
