

Main Street Concepts - Breezewald Park Pavilion

There is a unique opportunity to establish a gathering place within Breezewald Park to enjoy the tall trees and watch spectacular sunsets at the lake. It is envisioned for a private business to operate out of the pavilion, providing a selection of beverages and ready-to-eat snacks. Biergarten tables & benches, umbrellas and Edison-type lighting would provide a welcoming atmosphere for a low impact community destination without late night operating hours.

Funding for this Main Street amenity is available through park fees derived from the construction of Somerset By The Lake at the corner of Main Street and North Old Rand Road.

The Village Board and staff are looking for your feedback on development of a Breezewald Pavillion concept. For example: In your opinion, while a new use of the park, is this a destination you would visit? Does it enhance the livability of Lake Zurich?
