

FIRE DEPARTMENT

MONTHLY INFORMATION REPORT

February 2022

HIGHLIGHTING DATA METRICS
TO IDENTIFY OPERATIONAL TRENDS
AND
FACILITATE INFORMED DECISION-MAKING

70 E. MAIN STREET
LAKE ZURICH, IL 60047

OUR MISSION: To care for and protect our community.

OUR VISION: The Lake Zurich Fire Department is dedicated to meeting the ever-changing needs of our community, while ensuring a safe and secure environment for all, through professional development, unity, and teamwork.

OUR VALUES: Professionalism, Responsibility, Integrity, Dedication, Honor

Departmental Narrative - February 2022 Overview

In February, the Department responded to **314** calls for service, averaged **11** calls per day and required **482 individual vehicle responses** to provide the necessary personnel for each incident.

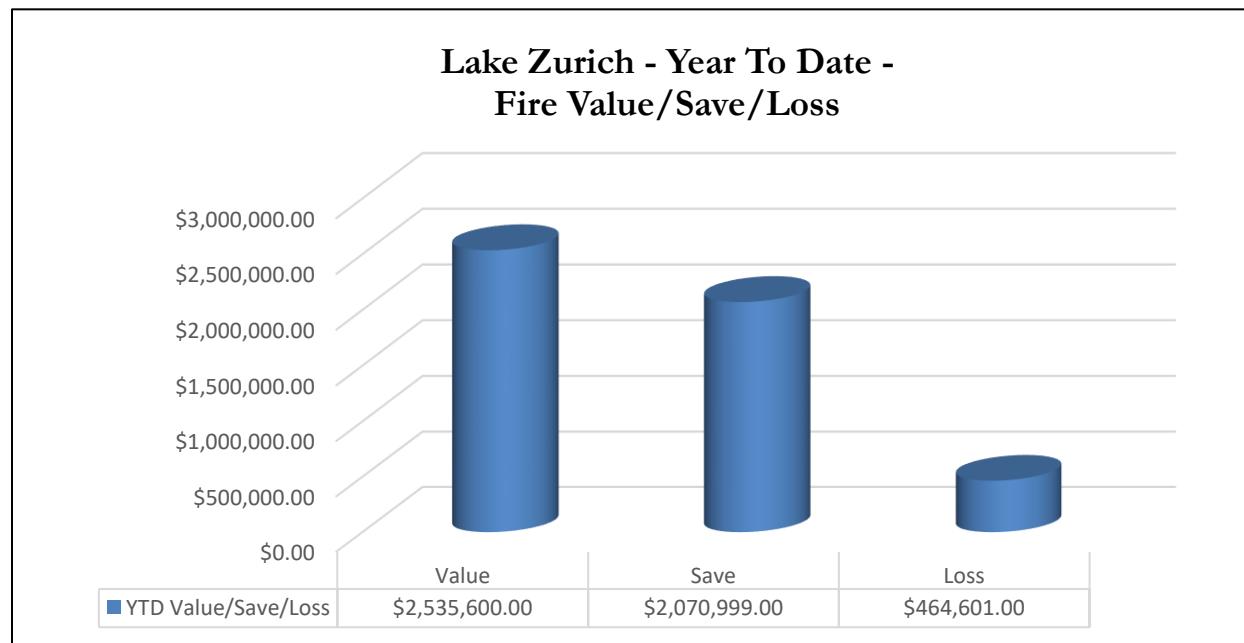

Thirty-five percent (**35%**) of the service area responses occurred while another call was in progress. Nineteen (**19%**) of needs required a response from the non-primary engine, ambulance, or a mutual aid department due to multiple calls in progress.

Our current staffing model increases response times when simultaneous calls occur as the Department is only structured to handle a single response per station. We staff two vehicles with only three personnel using what is called a "jump company. If the call is for the ambulance, the personnel respond with the ambulance, and if it is a fire call, the staff responds with the engine. One of the vehicles remains in the station unstaffed on every incident we respond to due to the limited personnel we have on shift. Once a station commits on a call, the next call for service requires another station or mutual aid to handle the incident.

Pictured right is a residential fire in the 1000 block of Memory Lane.

Fire Value/Save/Loss**

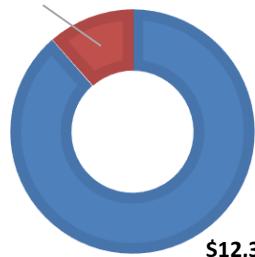

Administration Division

The department continues to work with the Board of Fire and Police Commission (BOFPC) on both the promotional testing process and screening new hire candidates for the open positions in the department. The screening process requires many hours, including a background interview, follow-up phone calls, neighborhood canvas, and medical and psychological exams. The department anticipates our overtime costs decreasing once we can bring the new hires on board and have them assigned to shift.

FIRE DEPARTMENT BUDGET

■ Overall Budget ■ YTD Expenses

\$1,597,456.00

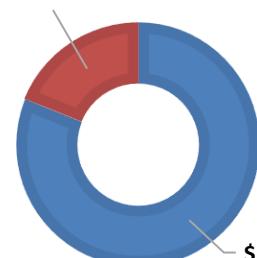

\$12,347,334.00

OVERTIME ACCOUNTS

■ Overtime Budget ■ YTD Spent

\$128,411.00

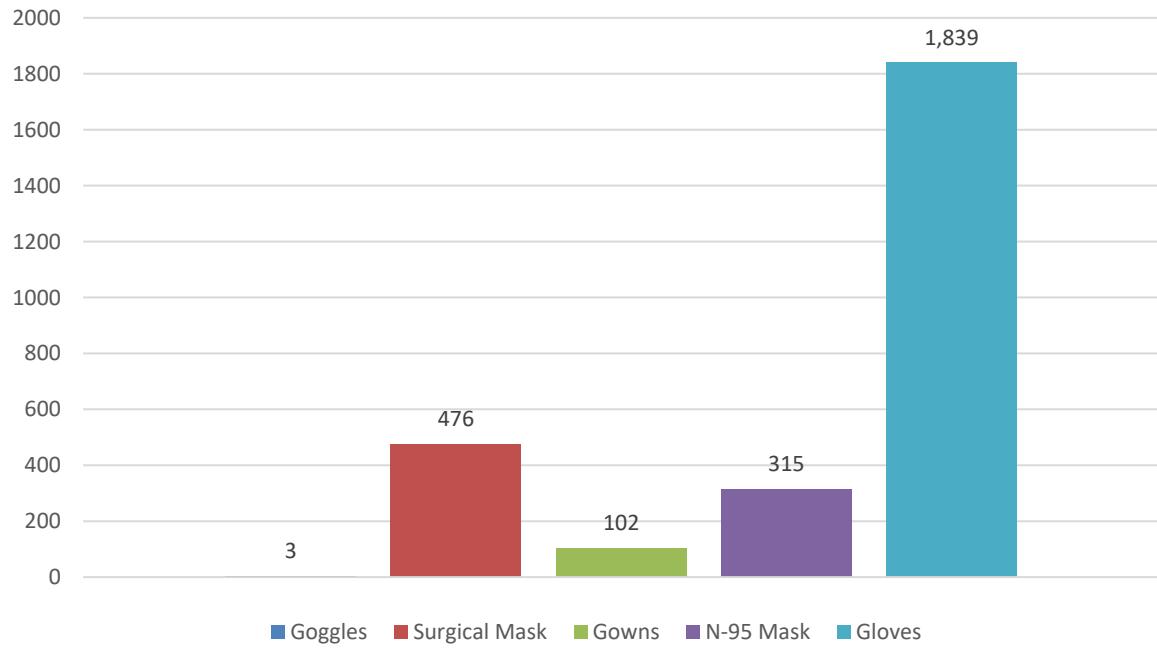

\$551,580.00

COVID-19 Updates

We are currently tracking the Personal Protective Equipment (PPE) that members use and dispose of due to the COVID-19 pandemic.

In February, we issued **3 pairs of safety goggles** and used **228 surgical masks** on patients, **128 - N95 respirators** for our personnel, **22 gowns**, and approximately **836 surgical gloves**. The graph pictured below shows year-to-date (2022).

PPE Utilized & Disposed 2022

Community Focus/Risk Reduction/Public Education

Examples of community focus/risk reduction/public education include but are not limited to; school talks and station tours where a safety message such as stop, drop, and roll is covered. We also monitor fire and severe weather drills in schools and educate children about fire safety. Also, we teach exit drills in the home to middle school students and provide CPR/First-Aid training.

Stop the Bleed course was hosted at Lake Zurich High School where roughly 90 students attended the class over 3 class periods. (Pictured left).

“This valuable training offered students the opportunity to learn the importance of scene safety before assisting a person with a severe bleeding injury. Students were engaged as they learned the three quick actions to control serious bleeding through both classroom and hands on activities,” Danielle Stevens - District Safety Manager.

CONGRATULATIONS TO CAPTAIN
LEE KAMMIN ON 25 YEARS OF SERVICE
WITH THE LAKE ZURICH FIRE
DEPARTMENT!

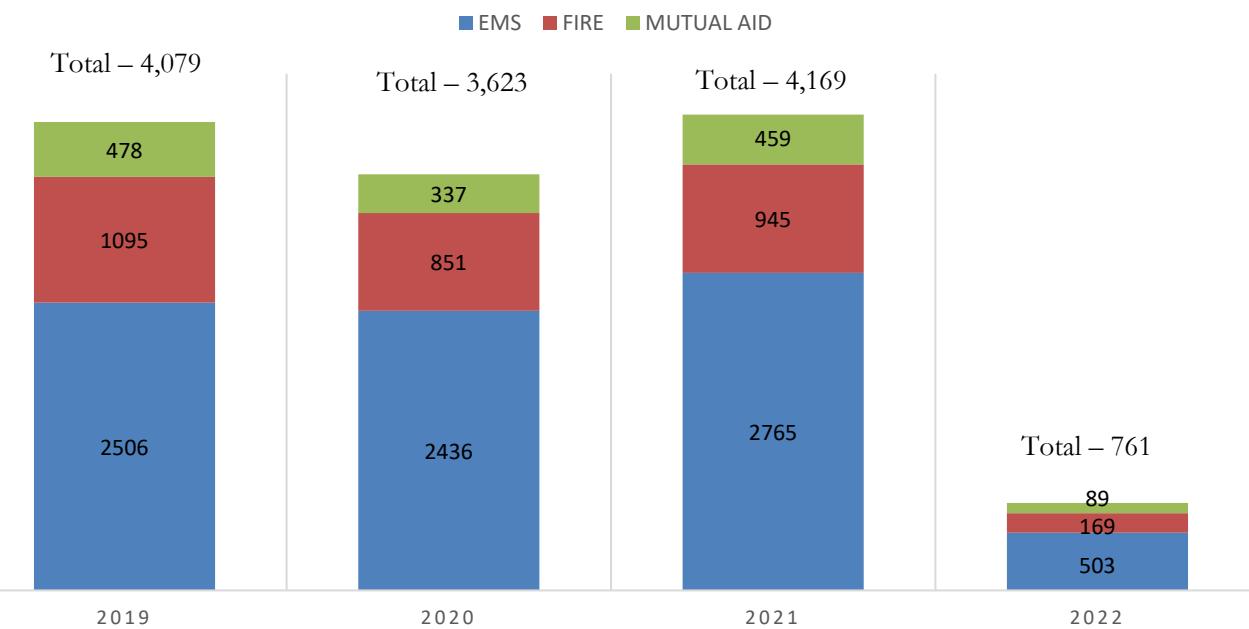

Operations Division

Vehicles Out of Service

- During February, the following vehicles were out of service due to maintenance, repairs, or breakdowns:
 - Ambulances – 24.75 hours
 - Engines – 145.50 hours
 - Year-To-Date Hours:

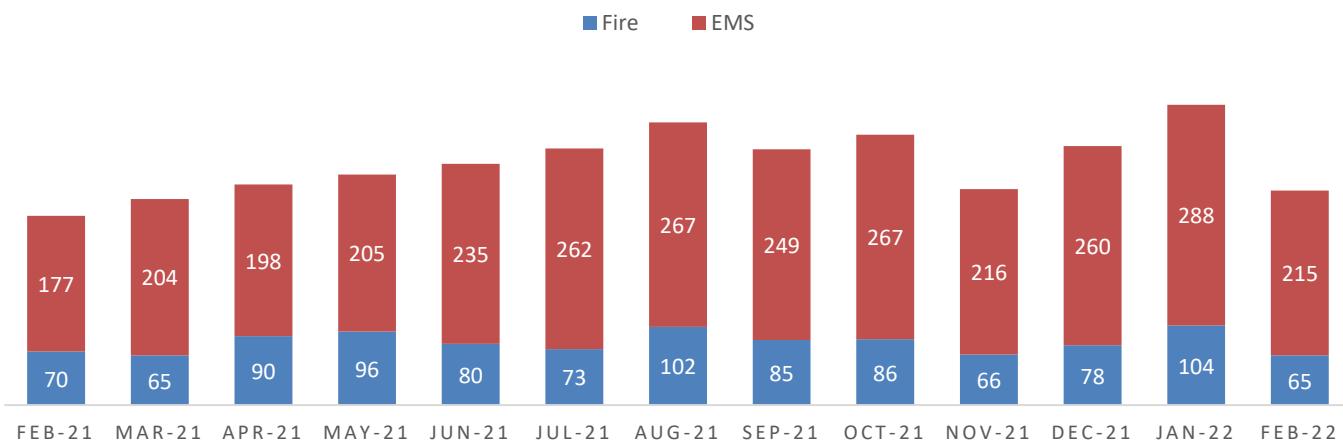

Ambulances: **56.25 hours** | Engines: **259.33 hours**

TOTAL CALLS - YTD (DATA WILL BE ADDED EACH MONTH TO 2022)

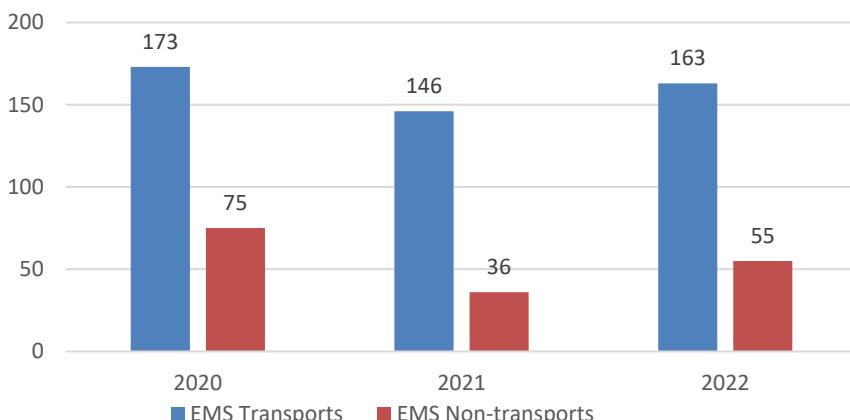

Below is the breakdown of Fire versus EMS incidents in Lake Zurich – minus aid given. Our fire calls include structure fires, car fires, grass fires, dumpster fires, wires down, and other types of service calls.

FEBRUARY - EMS V FIRE CALLS (NO MUTUAL OR AUTO AID)

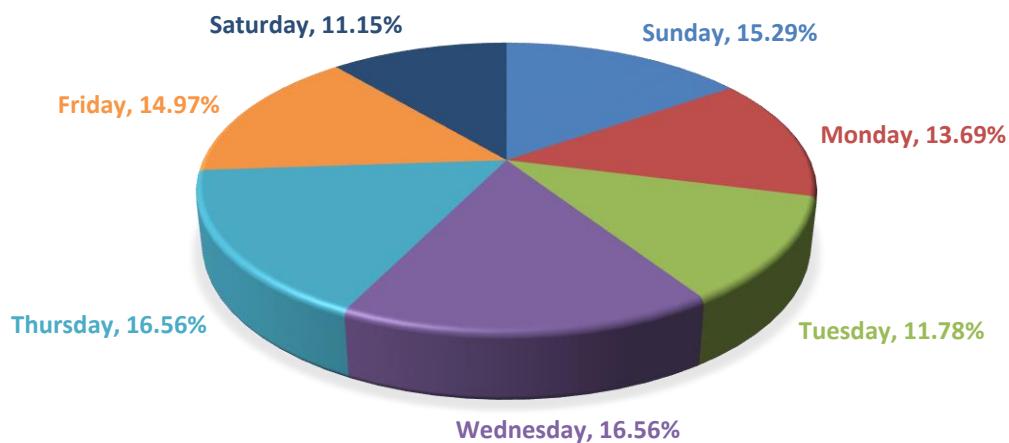

The following chart reflects activity related to emergency medical services, a core function of the fire department — not every EMS call result in transport. A prime example of this is an automobile accident where several victims refuses transport. EMS transports always outpace refusals. This chart compares the month of February across 3 years. The trend is consistent with the data period. These numbers represent the patients seen.

EMS Transports vs Non-Transports - (Patients)
Monthly 3 year - Comparison

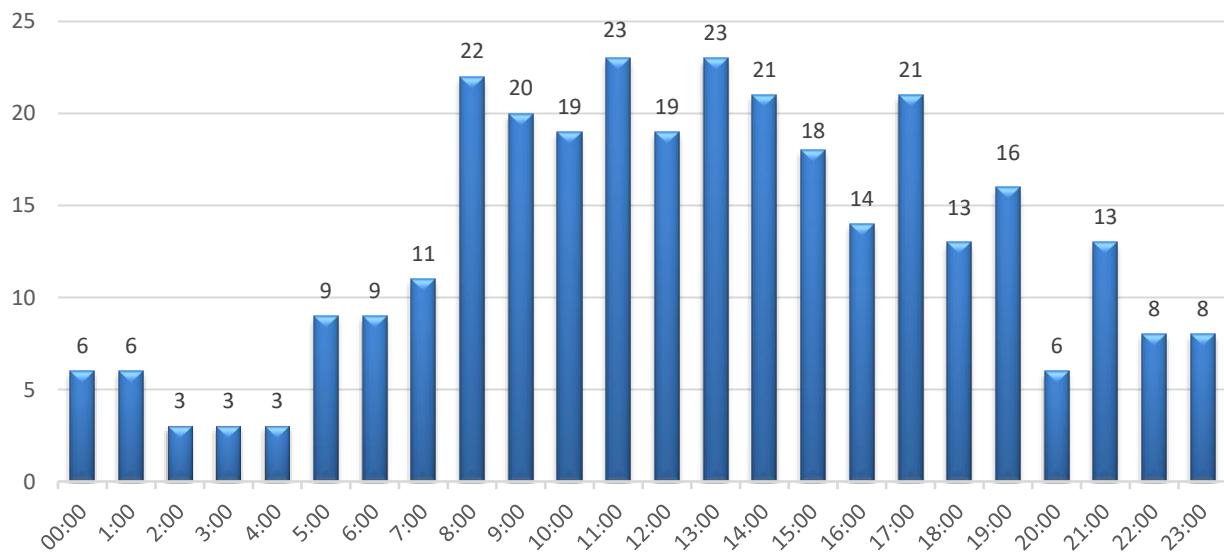

The following two charts break down calls by the day-of-week and hour-of-day.

RESPONSE BY DAY OF WEEK - FEBRUARY

RESPONSE BY HOUR OF DAY - FEBRUARY

STATION 1

321 S. Buesching Road

21970 Field Pkwy
Deer Park, IL 60010

APPARATUS & STAFFING

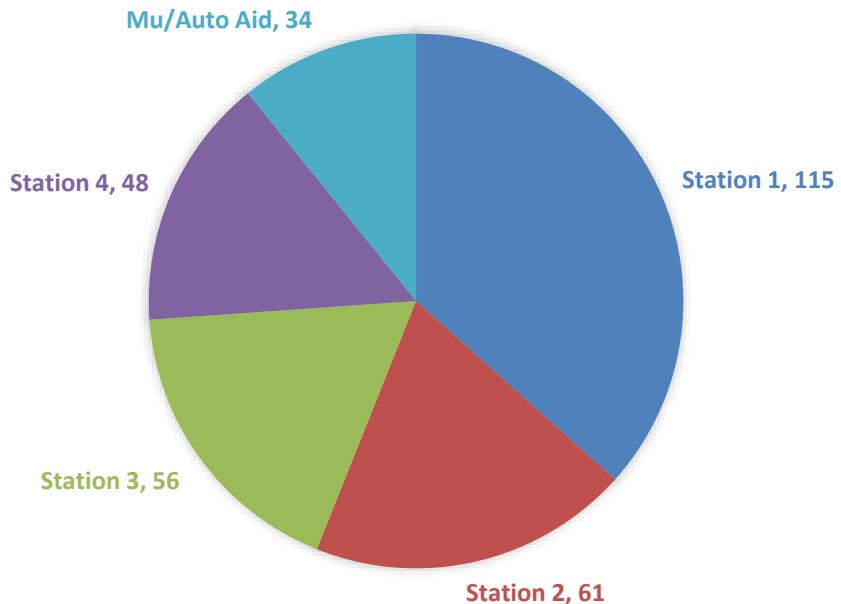

ENGINE 324

AMBULANCE 324

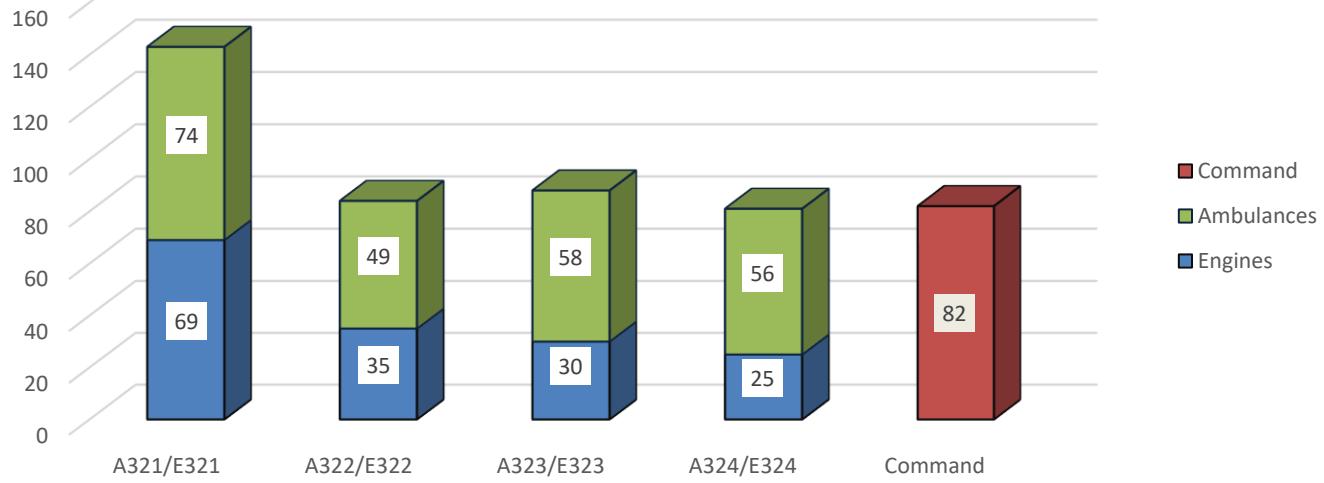

The graph below represents the percentage of calls by each station and mutual/auto aid for February, 2022. The chart does **not** represent the station that responded as the primary resource to the area – it means where the call originated. Station 1 is historically the busiest district.

ORIGIN OF CALLS - FEBRUARY, 2022

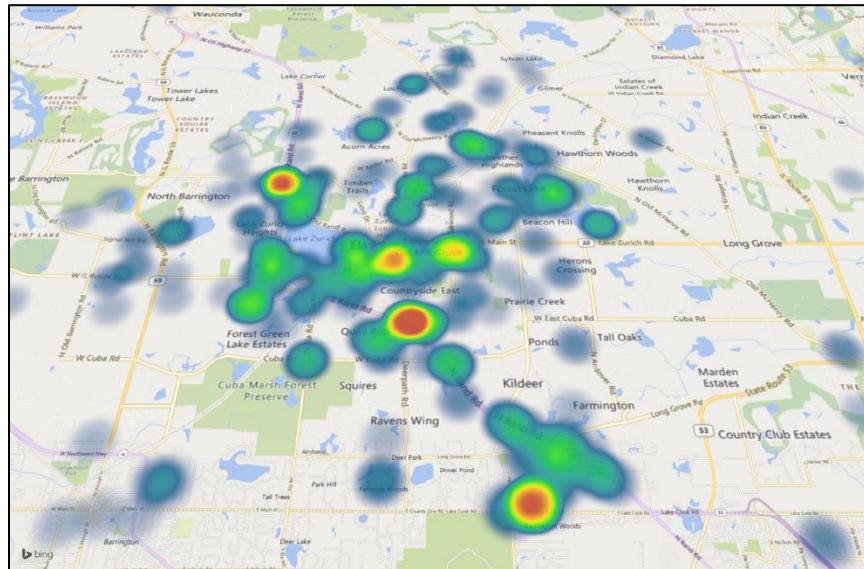

The graph below shows the responses by each unit – Ambulances, Engines, and Command Officer – in February

Total Unit Responses - Ambulances, Engines, & Command Officer

The following graphic is a visual representation of call distribution for February. As visually displayed, the assisted living/memory care facilities are a large portion of our department calls and are consistently within the top ten locations responded to each month. We frequently respond to doctor offices and health clinics, along with automobile accidents near the Route 12 corridor.

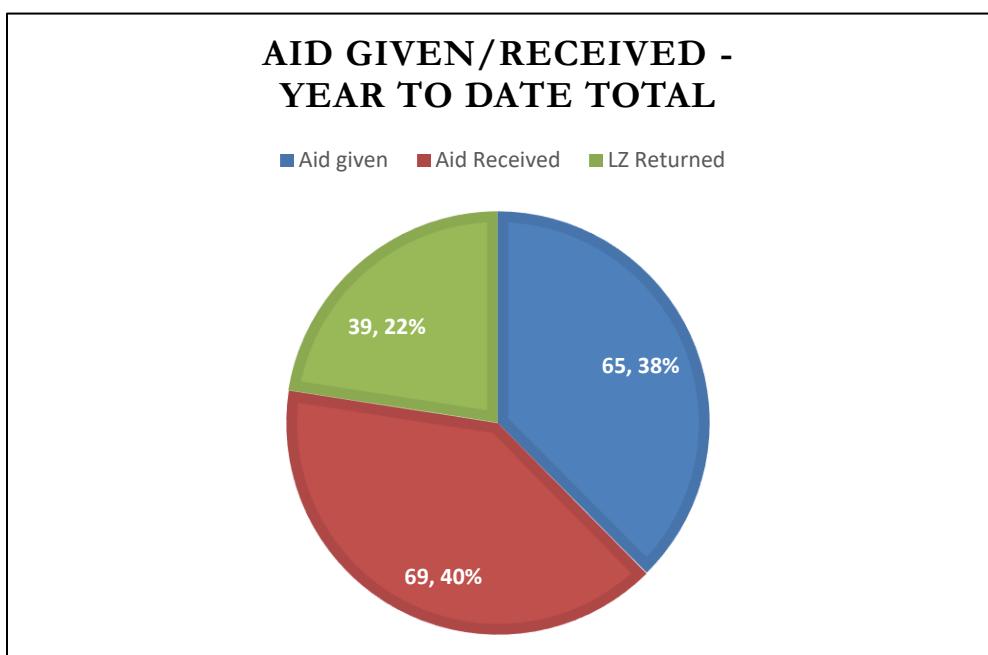

Frequent Call Locations:

- 795 N. Rand Road – Azpira Place of Lake Zurich – 17 responses
- 900 S. Rand Road – Avantara Health Care Center of Lake Zurich – 17 responses
- 21840 Lake Cook Road – Deer Park Village Senior Living – 16 responses
- 777 Church Street - Cedar Lake Assistant Living - 8 Responses
- 21481 N. Rand Road – Northwest Community Healthcare – 6 responses

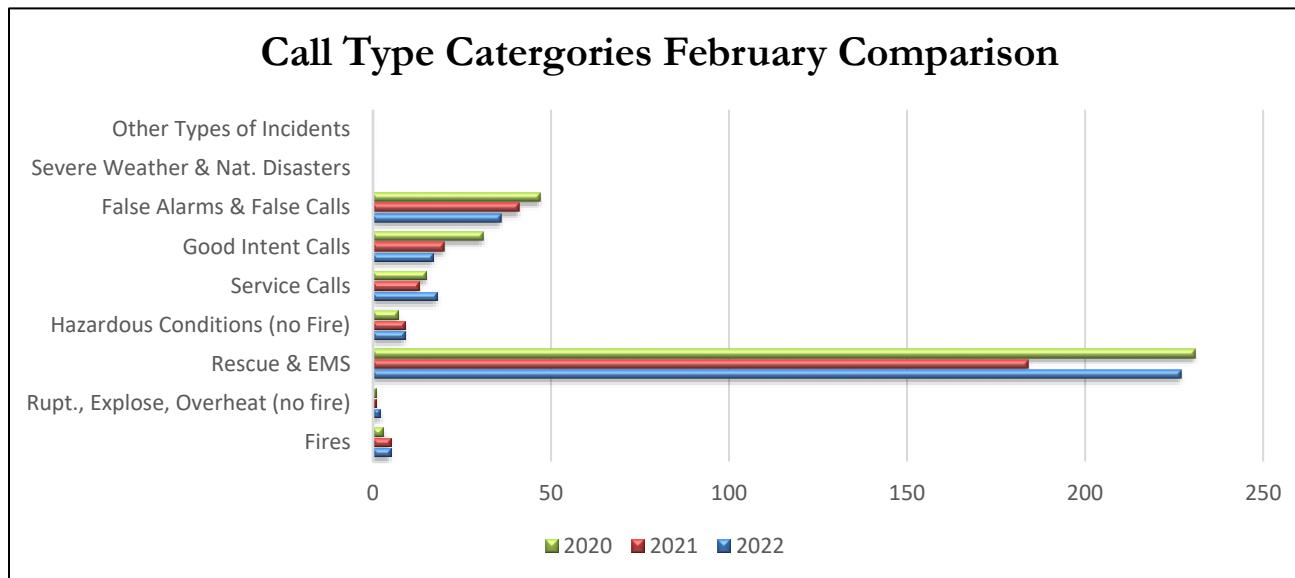

Mutual/Auto Aid Response Year to Date –

The mutual aid agreements are designed not to overburden any one agency and are looked at carefully for any necessary adjustments. Run cards for the Department have changed, and our partners are responding to assist us more often. In February, we responded to **34 mutual aid calls and returned 14 times** before our arrival. The chart to the right shows YTD Aid Given/Received and how many times LZ returned before their arrival. Many of our response incidents do not require

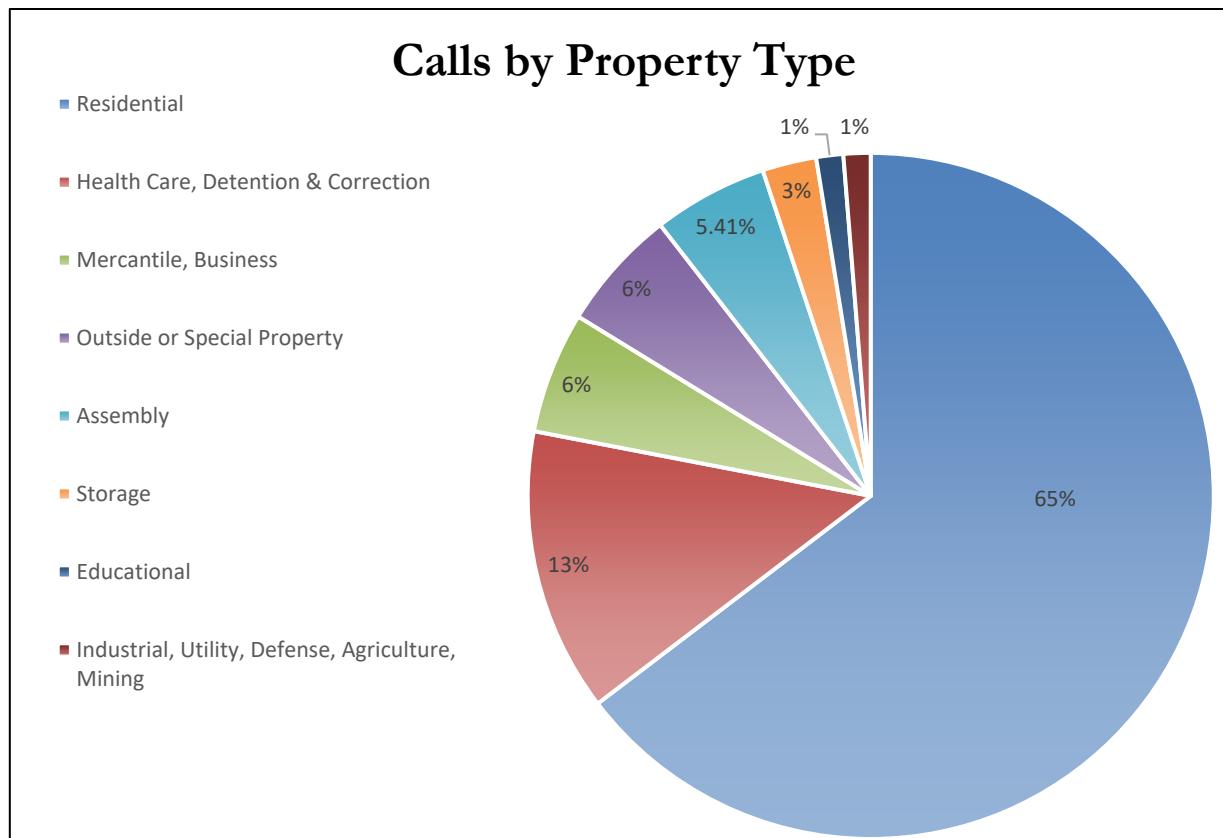

intervention from the LZPD 911 center through automated dispatching and resource sharing. They are entirely handled by the agency requesting our response — direct cost savings to our budget and an added benefit of the automated dispatch system.

All calls we code as a department within the National Fire Incident Reporting System (NFIRS). The codes all relate to the text categories noted in the chart below. As indicated below, you will see across the three years that the trends remain mostly the same. Rescue and EMS incidents account for most calls we respond to and continue to increase, as indicated below.

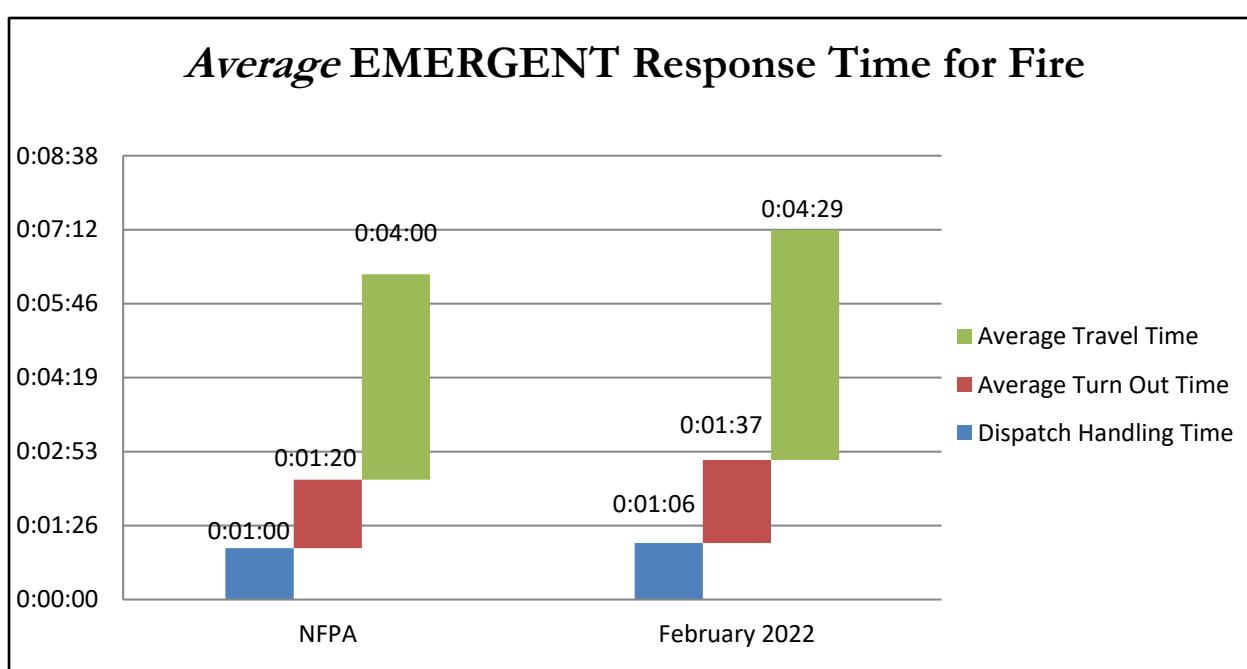

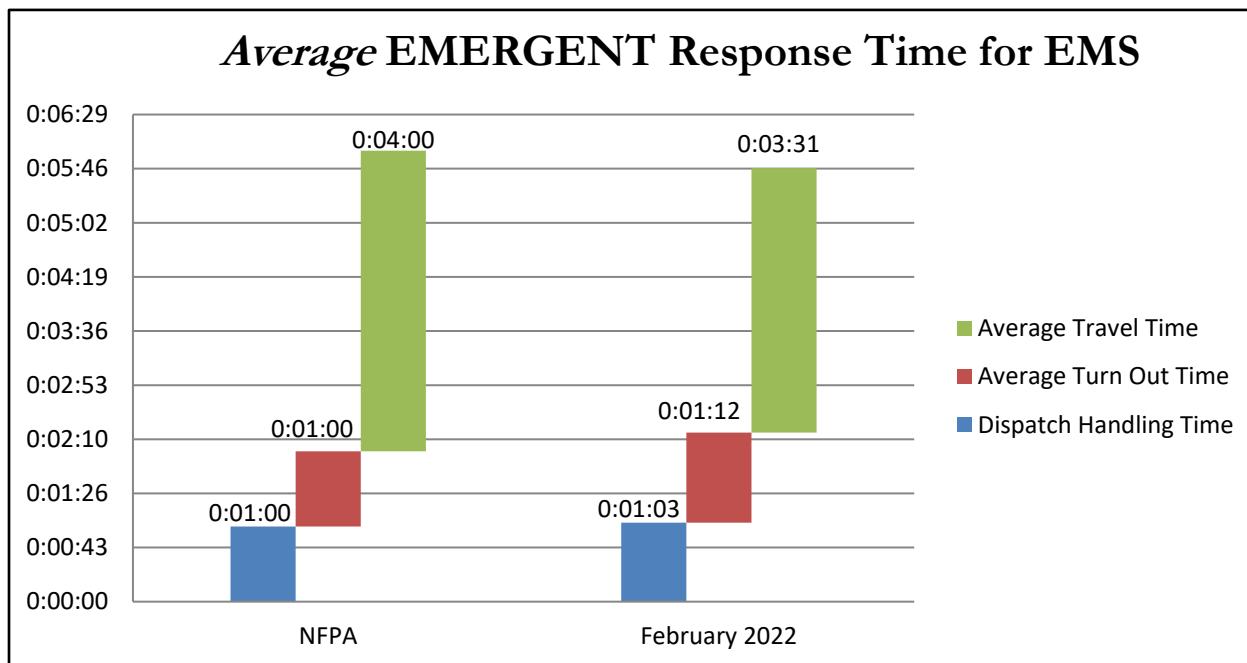

As previously mentioned, there is a national standard for coding the type of property use. How is this relevant? We see trends in various types of occupancies and use them to determine our service demand. For example, the healthcare category would increase if additional assisted living or nursing homes were open. As shown below, we continue to respond to Residential Properties more than any other (65%) and Health Care/Detention was second with (13%) of all calls.

Response time includes three key factors: dispatch handling time, turnout time, and travel time. Dispatch handling time is the time for dispatch to take in information and then dispatch personnel. The turnout time is when the crews receive the call to the time they get into the vehicles and hit the enroute button. Travel time reflects the time from en route to the time they arrive at the incident scene. Construction, speed limits, weather, and train traffic can impact response times. The overall goal for arrival at an emergency fire call is a total of 6 minutes and 20 seconds from the time of notification until the first unit arrives on the scene. For a response to an EMS incident, this time is 6 minutes.

The following two graphs compare the average emergency response times for both Fire and EMS calls within our first arriving unit's primary response area. These times will vary based in part on the first responding unit's location, multiple calls, weather, time of day, and traffic conditions. *Dispatch handle times have increased after switching to the new CAD system and delays caused by processing an alarm. The ETSB and Infor continue to work on the issue.

Training Division

During February, we completed the following shift training:

Emergency Response Guidebook Update Review - Crews completed a review of the Emergency Response Guidebook as part of Hazmat Operations training.

Aggression Management / Restraints - Crews completed mandatory Northwest Community Hospital restraint training.

CPR Recertification - Crews completed mandatory CPR recertification.

Firefighter Mental Health - Outside instructor gave presentation on Firefighter Mental Health and support.

After Action Review - Crews discussed what went well and what we could do different following the Memory Drive Fire.

FAST Board In-Service - Crews reviewed and practiced with the Fast Board that is used for Firefighter or Victim.

Company Needs - Company Officers evaluated their crew and based the training on the needs of their company. This included department SOG review and Daily Training Bulletin completion.

Weekly Equipment Review -

On a weekly bases crews review department equipment and ensure they can operate is properly and effectively.

Command Officer Training - Selected Lieutenants continued being mentored to fill the role of the Command Officer as needed.

EMS Continued Education - Paramedics completed EMS training on Infectious Diseases and Sepsis.

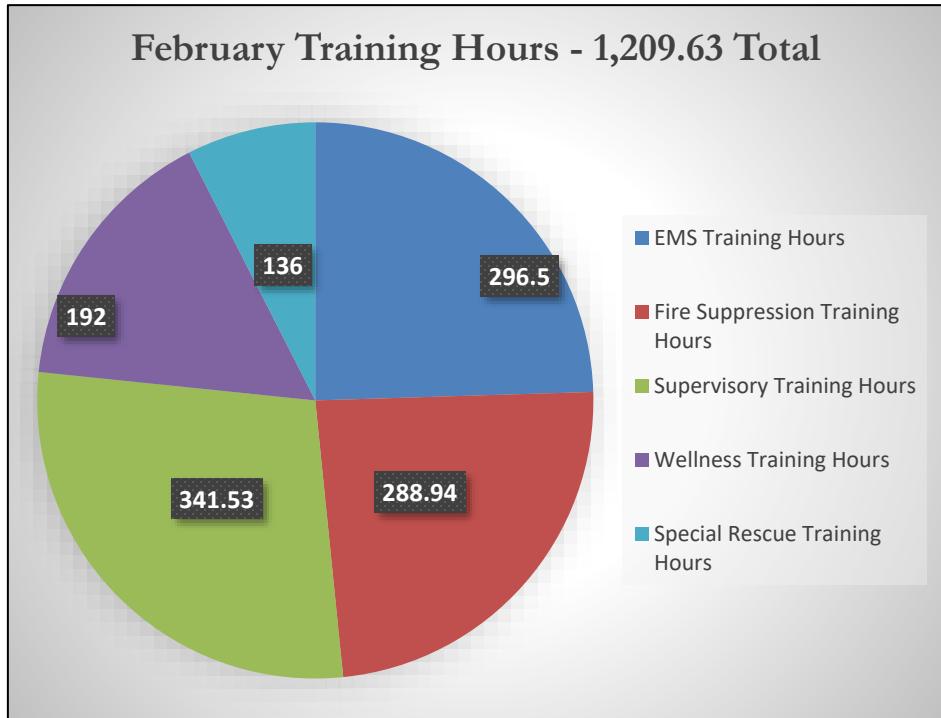

EMS System Entry - Probationary members worked on completing NCH EMS Entry.

The following members attended outside training.

Firefighter/Paramedic Ryan Bene attended the 16 hour Hazmat Incident Command class.

Firefighter/Paramedic Jacob Bartoli attended the 8 hour Paramedic Preceptor class

Firefighter/Paramedic Ryan Bene attended the 4 hour Commercial Building Operations class.

Fire Prevention Bureau Division

February saw another large surge in plan reviews compared to past years. 36 plans were received for review and approval.

February also saw the much anticipated changeover of our fire alarm receiving equipment and central station company. Many hours were spent working with F.S.S. and our dispatch team to train and then place our system in service. We would like to thank Heather Cipolla and Anne Harper, Dispatch Supervisors, for their help and understanding.

FEBRUARY ACTIVITIES

- Fire Inspectors meeting
- Fire Investigators training
- Fire Investigation of Memory Lane
- Fire alarm system replaced and testing at the police department with F.S.S.
- Construction Meetings
 - BISHD display racking
 - Kildeer day care
 - Lifetime x 3
 - District 95 2 new additions
 - Lake County building & zoning code mtg.
 - 35 West Main St.
 - New Building meeting Rose Road
