# BlueEdge HSA<sup>SM</sup> and BlueEdge Select HSA<sup>SM</sup> Plans

## Why Choose BlueEdge<sup>SM</sup>?

BlueEdge HSA is a consumer-directed health care plan (CDHP) that helps you meet your health and financial goals. It blends a qualified high-deductible health plan with a health savings account (HSA) where you decide to either pay for qualified health care costs with tax-free dollars or let the funds grow as savings.

Deposits to the account can be made by you, your employer or anyone else.

### BlueEdge HSA helps you with:

**Affordability** – Use health savings account funds to help meet your deductible, or leave them untouched to grow as savings.

**Tax savings** – Health savings account funds that are used for qualified health care costs are tax-exempt.

**Portability** – Your health savings account belongs to you. Unused funds can roll over at the end of the year, or you can take the money with you if you change health plans or your job, or if you retire.

**Control** – You decide how, when and where your health care dollars are spent. The savvier a consumer you are, the more you stretch how far your health savings account will take you.

**Freedom and choice** – Choose any doctor when you need care, but choosing a network doctor means you get the highest level of benefits.

### There's more to BlueEdge:

**Preventive care and wellness visits** – Adults and children are covered at 100 percent when you use network providers\*. You don't need to meet the deductible to enjoy these benefits.

**Online decision tools** – Personalize how you use your health care and your health care spending. Log in to Blue Access for Members<sup>SM</sup>, a safe, secure website at [bcbsil.com](http://bcbsil.com) to:

- Manage your benefits
- Search for a network provider
- Estimate the cost of a procedure or treatment
- Find health and wellness information and support
- Ask health care professionals for help with your concerns through 24/7 Nurseline

## Network Information

Use Provider Finder® at [bcbsil.com](http://bcbsil.com) to see if your doctor is in the network or to search for another network provider. You may also call BlueCard® Access toll-free at **800-810-BLUE (800-810-2583)** for provider information. Once you become a member, you can call the toll-free Customer Service phone number on the back of your member ID card for help.

# Health Savings Account Administration

Your health savings account is administered by a separate custodian — not Blue Cross and Blue Shield of Illinois. Your employer will give information about your account custodian.

## Special Notice about HSAs

Under IRS regulations, anyone enrolling in this health plan should be aware that any adult can contribute to a health savings account (HSA) if he/she:

- Has coverage under an HSA-qualified high deductible health plan (HDHP)
- Has no other first-dollar medical coverage (other types of insurance such as specific injury insurance or accident, disability, dental care, vision care, or long term care insurance are permitted)
- Is not enrolled in Medicare
  - An individual can be Medicare-eligible and have an HSA. However, once enrolled in Medicare, contributions to the HSA must stop. The individual can keep funds in the account before enrolling in Medicare and use those funds to pay for qualified medical costs tax-free.
- Cannot be claimed as a dependent on someone else's tax return

There are other regulations about contributions and distributions. If you are enrolling in a plan that includes a health savings account, you should first seek professional tax counsel to determine if your individual situation permits use of an HSA. If you have a flexible spending account (FSA), or a health care account (HCA), check with your employer to confirm that you are eligible for an HSA. Both the FSA and HCA are considered a limited purpose account that can only be used for certain expenses.

# How It Works

## BlueEdge HSA Example

Ben and Aileen and their two children have BlueEdge Select HSA family coverage through Aileen's employer. The plan is paired with a health savings account that includes a debit card and checks from the HSA administrator\*. At the beginning of the year, Ben and Aileen put \$3,000 into their health savings account (the contribution cannot exceed the maximum determined annually by the IRS).

### Year One

- Aileen's health savings account annual contribution = \$3,000**
- Aileen's annual family deductible = \$3,000**

Ben and Aileen had physicals and preventive care lab tests<sup>†</sup>.

- \$580 was paid by the preventive care benefit.

Both children had annual physicals and routine immunizations.

- \$320 was paid by the preventive care benefit.

Ben tore a ligament in his knee that required surgery.

- Charges of \$675 for the emergency room visit were paid with the health savings account debit card, which counts toward the deductible<sup>††</sup>.
- Surgery charges were \$6,000. Ben paid \$2,325 with the debit card. With this, the \$3,000 family deductible had been satisfied and health plan benefits began. Of the remaining \$3,675, the health plan paid 80 percent (\$2,940) and Ben paid his 20 percent coinsurance (\$735).

Aileen saw a dermatologist and had several moles removed.

- Charges were \$1,200. The health plan paid 80 percent (\$960), and Aileen paid her 20 percent coinsurance (\$240).

All of the health savings account money was spent so there was no amount to roll over to next year.

### Year Two

- Ben and Aileen decide to contribute \$3,000 once again to their health savings account at the beginning of the year.**

Ben and Aileen had physicals and preventive care lab tests.

- \$525 was paid by the preventive care benefit.

Both children had annual physicals.

- \$275 was paid by the preventive care benefit.

Aileen saw her dermatologist for a follow-up visit.

- She paid for the \$175 visit with the HSA debit card, which also counted toward the deductible.

Ben participated in a smoking cessation program.

- The program cost \$450 and he paid for it with a check from the health savings account. This expense did not count toward the deductible.

At the end of year two, \$2,375 remains in the health savings account and this rolls over to the next year.

\*The provider should first submit your claim for processing so that you receive benefits at the Blue Cross and Blue Shield of Illinois negotiated rate. You may then use the debit card or checks to pay any balance due to the provider.

<sup>†</sup>In these examples, in-network preventive care is covered at 100%. Not all groups cover preventive care. Ask your employer for details.

<sup>††</sup>Funds must be available in your health savings account before you can use them to pay for medical services. Ask your employer when funds will be deposited to your account (each pay period, quarterly, annually, etc.).

# Frequently Asked Questions About BlueEdge HSA

## What is a health savings account?

If you have a qualified high-deductible health plan (HDHP), you can establish a tax-exempt health savings account with your own funds, those from your employer or both. You can use the funds to pay for qualified medical care services. Qualified expenses also count toward your annual deductible. Balances roll over from year to year and the account is portable, which means you keep it if you change benefit plans, jobs or if you retire.

## How can I decide if BlueEdge HSA is right for me?

Comparing covered benefits, network providers, the cost of coverage and other out-of-pocket expenses are important when choosing a health plan. For more information on HSAs, visit the U.S. Treasury's website at [treasury.gov](http://treasury.gov).

## Who is eligible to open a health savings account?

Only eligible individuals may open an HSA. To qualify for an HSA, you:

- Must be enrolled in an HSA-compatible HDHP as of the first day of the month;
- May not have other coverage that is not an HSA-compatible HDHP, including Medicare coverage (certain exceptions apply);
- May not be claimed as a dependent on another person's tax return.

## How is the HSA account funded?

IRS rules for contributions include, but are not limited to the following:

Any person (an employer, a family member or any other person) may make contributions to an HSA for an eligible individual.

## Is there a specific health plan design for HSAs?

Yes. HSA law and IRS guidance have focused on four parts of the HDHP plan design:

- The deductible
- The out-of-pocket maximum
- Preventive care
- The overall benefit design must provide "significant benefits" at all times to those covered by the HDHP

# Medical Plan Frequently Asked Questions

## Q. Are my medical records kept confidential?

A. Yes. Blue Cross and Blue Shield of Illinois is committed to keeping all specific member information confidential. Anyone who may have to review your records is required to keep your information confidential. Your medical records or claims data may have to be reviewed (for example, as part of an appeal that you request). If so, precautions are taken to keep your information confidential. In many cases, your identity will not be associated with this information.

## Q. Who do I call with questions about my benefits?

A. Call the toll-free Customer Service number on your member ID card.

## Q. How do I find a contracting network doctor or hospital?

A. Go to **bcbsil.com** and use Provider Finder®, or call Customer Service at the toll-free number on your member ID card.

## Q. What do I do when I need emergency care?

A. Call 911 or seek help from any doctor or hospital. BCBSIL will coordinate your care with the emergency provider.

Some options for non-emergency care include:

- **Your doctor's office** for health exams, routine shots, colds, flu and other minor illnesses or injuries.
- **Walk-in retail health clinics are available in retail stores when referred by your Primary Care Provider/Medical Group for in-network coverage.** Many have a physician assistant or nurse practitioner who can help treat ear infections, rashes, minor cuts and scrapes, allergies, colds and other minor health problems.
- **Urgent or immediate care clinics** for more serious health issues, such as when you need an X-ray or stitches.

## **Urgent Care or Freestanding Emergency Room?**

Urgent care centers and freestanding ERs can be hard to tell apart. Freestanding ERs often look a lot like urgent care centers, but costs are higher, just as if you went to the ER at a hospital. Here are some ways to know if you are at a freestanding ER.

### **Freestanding ERs:**

- Look like urgent care centers, but have **EMERGENCY** in the facility name.
- Are separate from a hospital but are equipped and work the same as an ER.
- Are staffed by board-certified ER physicians and are subject to the same ER copay.
- Find urgent care centers<sup>1</sup> near you by texting<sup>2</sup> **URGENTIL** to **33633** and then type in your ZIP code.

## **Q. What should I bring to my first appointment with a new doctor?**

A. Your first appointment is an opportunity to share information about your health with your new doctor. Bring as much medical information as possible, including:

- **Medical records and insurance card** — If you are undergoing treatment at the time you change doctors, your medical records are important to your new doctor. Your insurance card provides information about copayments, billing and Customer Service phone numbers.
- **Medications** — Give your new doctor information about prescription and over-the-counter medications, including any herbal medications you take. Be sure to include the name of the medication, the dosage, how often you take it and why you take it.
- **Special needs** — Make a list of any equipment or devices you use including wheelchairs, oxygen, glucose monitors and the glucose strips. Be prepared to explain how you use them, not only to make sure you have the equipment you need, but also to make sure that there is no disruption in your care.

## **Q. What questions should I ask if I am selecting a new doctor?**

A. In addition to preliminary questions you might ask a new doctor — such as "Are you accepting new patients?" — here are some questions to help you evaluate whether a doctor is right for you.

- What is the doctor's experience in treating patients with the same health problems that I have?
- Where is the doctor's office? Is there convenient and ample parking, or is it close to public transportation?
- What are the regular office hours? Does the office have drop-in hours if I have an urgent problem?
- How long should I expect to wait to see the doctor when I'm in the waiting room?
- Are routine lab tests and X-rays performed in the office, or will I have to go elsewhere?
- Which hospitals does the doctor use?
- If this is a group practice, will I always see my chosen doctor?
- How long does it usually take to get an appointment?
- How do I get in touch with the doctor after office hours?
- Can I get advice about routine medical problems over the phone or by email?
- Does the office send reminders for routine preventive tests like cholesterol checks?

## **Q. What if I'm already in treatment when I enroll and my provider isn't in the network?**

A. We'll work with you to provide the most appropriate care for your medical situation, especially if you are pregnant or receiving treatment for a serious illness. You may still be able to see your out-of-network provider for a period of time. Call the toll-free Customer Service number on your member ID card for more information.

<sup>1</sup>The closest urgent care center may not be in your network. Be sure to check Provider Finder to make sure the center you go to is in-network.

# Other Benefits for Non-HMO Plans

**Your health care benefit plan travels with you wherever you go - across the country or around the world.**

## Preventive Care

Your coverage may include preventive care benefits for children and adults, including physical exams, diagnostic tests and immunizations. Check your group plan for specific coverage.

## Emergency Care

If you, as a prudent layperson (with an average knowledge of health and medicine) need to go to the emergency room of any hospital, your care will be covered subject to your plan's deductible and any applicable copayments or coinsurance. In an emergency, you should seek care from an emergency room or other similar facility. Call 911 or other community emergency resources to obtain assistance in life-threatening situations. Your group plan may require that you, a family member or friend contact Blue Cross and Blue Shield of Illinois (BCBSIL) if you are admitted to the hospital.

## National Coverage

You have nationwide access to contracting providers in networks linked through the BlueCard® program when you or your covered dependents live, work or travel anywhere in the country. The national network includes most physicians and hospitals in the country. Be sure to use a BlueCard network provider to receive the highest level of benefits.

With the BlueCard program, there are two ways to locate contracting doctors and hospitals:

- Visit the website at **bcbsil.com** and click on the Find a Doctor or Hospital tab to use the Provider Finder® tool or call BlueCard® Access at **800-810- BLUE (800-810-2583)** for help. Maps and driving directions are also available.
- Call Customer Service at the toll-free number on the back of your member ID card.

## **Reconstructive Surgery Following a Mastectomy**

Federal and State of Illinois legislation require group health plans and health insurers to provide coverage for reconstructive surgery following a mastectomy. Specifically, these laws state that health plans that cover mastectomies must also provide coverage in a manner determined in consultation with the attending physician and patient for reconstruction of the breast on which the mastectomy has been performed, surgery and reconstruction of the other breast to produce a symmetrical appearance, and prostheses and treatment of physical complications for all stages of mastectomy, including lymphedemas.

Your coverage may also include benefits for baseline and annual mammograms. Check your group plan documents for details.

## **Illinois Dependent Eligibility Mandate**

Under Federal law, your dependents are eligible for health and dental coverage up to the dependent limiting age and may not be denied coverage due to marital, student or employment status before age 26. Check with your employer for additional details regarding eligibility requirements. In addition, eligible military personnel may not be denied coverage before age 30 under Illinois law. If you elect Blue Choice Select<sup>SM</sup> coverage, your dependents must live within the defined service area.

This Illinois law applies to all individual plans and insured group medical and dental plans, as well as self-insured municipalities, counties and schools. The law does not apply to self-funded national account groups or local non-municipal self-funded groups. If you have questions about this law, contact your benefits administrator.

## **International Coverage**

When you travel outside the United States and need medical assistance services, call **800-810-BLUE (800-810-2583)** or call collect to **804-673-1177** for information. Blue Cross and Blue Shield has contracts with doctors and hospitals in more than 190 countries. An assistance coordinator, in conjunction with a medical professional, can arrange your doctor's appointment or hospitalization, if necessary.

Providers that participate in the Blue Cross Blue Shield Global<sup>®</sup> Core\* program, in most cases, will not require you to pay up front for inpatient care. You are responsible for the out-of-pocket expenses such as a deductible, copayment, coinsurance and non-covered services. The doctor or hospital should submit your claim.

You also have coverage at non-contracting hospitals, but you will have to pay the doctor or hospital for care at the time of service, then submit an international claim form with original bills. Call Customer Service at the toll-free customer service number on your member ID card for the address to send the claim. You can get a claim form from your employer, Customer Service or online at **bcbsil.com**.

**GLOSSARY OF TERMS** - We have described some of the terms used here to help you understand them, but you should make sure to read your benefit plan materials if you have questions.

**Amount Billed:** The amount your provider billed for the service(s) rendered.

**Amount Covered (Allowed):** Discounts, reductions, and amount covered (allowed) reflect the terms of your plan, and in the case of an in-network provider, the savings we have negotiated with your provider. Your deductible, coinsurance and copay are based on the allowed amount and the terms of your plan. Your share of coinsurance is a percentage of the allowed amount after the deductible is met.

**Coinurance:** The percentage of the allowed amount you pay as your share of the bill. For example, if your plan pays 80% of the allowed amount, 20% would be your coinsurance.

**Copay Amount (Also known as Copayment):** The set fee you pay each time you receive a certain service. Some plans do not have copayments.

**Deductible:** The amount, if any, you must pay before we start paying contract benefits. You do not send this amount to us. We subtract this amount from covered expenses on claims you and health care professionals send us. Some services can be covered before the deductible is met.

**Non-Participating Provider:** An out-of-network provider who does not accept rates for services we set to keep your costs down.

**Out-of-Pocket Limit (Maximum):** Once you pay this amount in deductibles, copayments and coinsurance for covered services, we pay 100% of the allowed amount for covered services for the rest of the benefit period. Individual policies may vary.

**Participating Provider:** An in-network or out-of-network provider who accepts agreed-upon rates for services.

**Your Total Costs:** This is the sum of your copay, deductible and coinsurance. It also includes any amounts not covered by your health plan. Amounts that a non-participating provider may bill you are not part of this.

### Explore Your Wellness World

When you log in to your portal, you will find a wide variety of health and wellness resources, including:

- The Health Assessment (HA)

### See Your Stats in a Flash

Everything you want to see quickly is on your dashboard. The dashboard shows all of your Well onTarget programs. You can see where you are today compared with where you were when you started. You can also read the latest health news, check your activity progress and more.

### Take a Snapshot of Your Health

The HA asks you questions about your health and habits.<sup>1</sup> You then get a Personal Wellness Report. This report suggests ways to make positive lifestyle changes. Your report can also help you decide which Well onTarget program to start first to get the most benefit. You can even print a Provider Report to share with your doctor.

## Blue Points<sup>SM</sup> Program<sup>2</sup>

The portal also offers a symptom checker. When you don't feel well, this tool can help you decide if you should see a doctor.

## Self-Management Programs

These programs consist of:
