Executive Director/CEO

OFFICE OF THE VILLAGE MANAGER

Ray Keller

June 23, 2017

The Honorable Tom Poynton, Village President
Members of the Village Board of Trustees
Citizens of the Village of Lake Zurich, Illinois

The Finance Department is pleased to submit herewith the Comprehensive Annual Financial Report (CAFR) of the Village of Lake Zurich, Illinois (the Village) for the fiscal year ended December 31, 2016. This report provides a broad view of the Village's financial activities for the eight month 2016B fiscal year and its financial position at December 31, 2016. This fiscal year is a transition year as the village moves to a calendar year fiscal period starting in 2017.

Although addressed to the elected officials and citizens of the Village, this report has a number of other users. Foremost among these other users are bondholders of the Village, financial institutions, credit rating agencies, educational institutions, and other government entities. Illinois statutes require that Illinois municipalities publish financial statements on an annual basis that are prepared in accordance with generally accepted accounting principles and are audited by independent accountants. In producing a CAFR, the Village of Lake Zurich has chosen to provide financial information that is significantly greater than that which is required under state law.

Responsibility for both the accuracy of the information presented in the CAFR as well as the completeness and fairness of the presentation, including all disclosures, rests with the Village. We believe that the information, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position of the Village and the results of its operations; and that all disclosures necessary to enable the reader to gain the maximum understanding of the Village's financial affairs have been included.

Sikich LLP (Certified Public Accountants) has issued an unmodified ("clean") opinion on the Village's financial statements for the fiscal year ended December 31, 2016. The independent auditor's report is located at the front of the financial section of this report.

Management of the Village has established a system of internal control designed to assure that the assets of the Village are safeguarded against loss, theft, or misuse. The system of internal control also assures that the accounting system compiles reliable financial data for the preparation of financial statements in conformity with generally accepted accounting principles. Internal accounting controls are designed to provide reasonable, not absolute, assurance that these objectives will be met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of the costs and benefits requires estimates and judgments by management.

This letter of transmittal should be read in conjunction with management's discussion and analysis to obtain the most complete assessment of the Village's current financial status and its future prospects.

Profile of the Government

The Village of Lake Zurich is located in southwestern Lake County, 37 miles northwest of downtown Chicago. The Village is an established residential community which traditionally served as a market center for surrounding rural areas and, earlier in the 20th century, as a popular summer resort. The population has increased by more than five times since 1960, as the Village has shared in the economic growth from an expanding Chicago metropolitan area. Lake Zurich has developed into a stable community with above-average wealth and housing values, and a balanced tax and revenue base.

Settlers first came to the area in the 1830's. George Ela settled in the area of Deer Grove, not far from Cedar Lake (now Lake Zurich) in 1935. Seth Paine, a Chicagoan, came to the area in 1836, and built a number of commercial establishments in what is now downtown Lake Zurich. New England farmers and German immigrants followed, and the Village was incorporated on September 19, 1896.

The Village grew slowly after its incorporation. The Palatine and Lake Zurich and Wauconda Railroad was built in 1910, but the line was discontinued in 1920. Rand Road (now U.S. Route 12) was paved through town in 1922, and helped establish Lake Zurich, with its rural setting and 250-acre lake, as a summer resort community. The east-west State Route 22, which also runs through Lake Zurich, was constructed in 1927. Population growth accelerated after World War II, with the Village's population increasing from 850 in 1950 to 3,458 in 1960, and further to 4,082 in 1970, 8,225 in 1980, and 14,927 in 1990 (up 81.5% from 1980). The 2000 Census reported a population of 18,104 up 21.3% from 1990. The Village estimates its current population at 19,932. The land area of the Village is 6.9 square miles.

The Village's municipal neighbors include North Barrington to the west, Deer Park to the south, Kildeer to the southeast and east, and Hawthorn Woods to the north. Transportation links include U.S. Route 12 and State Route 22, and freight rail service by the CN Railroad. Commuter train service to Chicago is available in Barrington, five miles from Lake Zurich. O'Hare International Airport is approximately 30 miles from the Village.

The Village is a non-home rule community operating under the management form of municipal government as provided in 65 ICLS 5. Lake Zurich is governed by a President and six-member Board of Trustees. All are elected at an at-large basis in non-partisan elections to overlapping four year terms. The Board and President are charged with (among other things) setting policy, passing ordinances, adopting the budget and hiring the Village Manager. In turn, the Village Manager oversees day-to-day operations of the Village. Additional demographic information about the Village can be found in the statistical section of this report.

The Reporting Entity

This report includes all activities and functions of the Village that are under the jurisdiction of the Board of Trustees, as set forth in state and local law. There are two blended component units included in this report, those being the Police Pension Fund and the Firefighters' Pension Fund. These two pension plans are governed by separate boards, but the Village is obligated by state statute to fund the two plans based on actuarial valuations.

Accounting System and Budgetary Control

The accounts of the Village are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing

accounts that comprise its assets, liabilities, fund balances, revenues, and expenditures. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The Village's accounting records are generally maintained on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when measurable and available to liquidate obligations of the current period. Expenditures are recorded when a liability is incurred that is expected to draw upon current financial resources. The modified accrual accounting records are the basis for assessing budgetary compliance. After the end of the year, the Village's management makes certain adjustments to the accounting records to permit the preparation of required financial statements on the accrual basis of accounting to comply with generally accepted accounting principles. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when incurred.

The annual budget serves as the foundation for the Village's financial planning and control. It also serves as the legal authority to spend public funds. The Village Board has adopted the Budget Act for purposes of legally appropriating public funds. The Village Manager was designated by the Village Board as the Budget Officer. All departments submit their budget requests to the Village Manager approximately four months before the start of the next fiscal year. The Director of Finance prepares a projection of revenues to be received during the fiscal year. The Village Manager, Director of Finance, and appropriate staff review all budget requests and revenue estimates and develop a proposed budget. The proposed budget is presented to the Village Board and a formal public hearing is held prior to its adoption by the Village Board, which is required by state law prior to the first day of the fiscal year. The Budget Officer may approve the transfer of budgeted funds from one account to another, provided the two accounts are within the same object class and within the same department and fund. Any other amendments or increases to the annual budget may be done only by a two-thirds vote of the Village Board.

This fiscal year, 2016B, will be the last fiscal year to begin on May 1st. An eight-month budget was adopted for FY 2016B, which runs from May 1, 2016 to December 31, 2016. Thereafter, the Village's fiscal periods will coincide with the calendar year starting on January 1, 2017.

Factors Affecting Economic Condition

Local Economy: Like all other local governments, the Village of Lake Zurich was affected by the economic downturn which caused declines in retail sales and property values compared to 2007, however we have seen a steady improvement in the past few years. The 2016 Equalized Assessed Value for the Village has been set at \$831,155,897 which increased from the prior year by approximately 4.6%. The unemployment rate in Lake County was 4.2% as of April 2017, slightly lower than the Illinois rate of 4.4% and just higher than the U.S. unemployment rate of 4.1%. Lake Zurich is primarily a white collar community and therefore the residents have been less affected by the loss of manufacturing jobs impacting other states and counties. Revenues are showing modest increases, while expenditures continued to increase, especially in the areas of pension and health care costs.

Lake Zurich has a very strong retail sales tax base primarily located on the Rand Road Corridor. Sales tax revenue for the Village continues to be stable. The Village has a strong mix of retail superstores, such as Costco, Home Depot, Wal-Mart, Target and Mariano's, which has helped in weathering the recession. The Village is also home to Peapod, a nationwide grocery delivery company. Peapod's sales have increased significantly the last five years and the Village has a sales tax sharing incentive with Peapod. Despite a strong sales tax base, the rising cost of operations limits the Village's ability to properly maintain and improve the citizens' investment in Village infrastructure. Village management is continuously looking for

ways to cut costs and/or increase revenues. However, a large proportion of the increasing costs are mandated by statute, regulatory agencies, and/or labor contracts.

Retail vacancy rates increased slightly over the last year, with the latest analysis indicating a retail vacancy rate of 7.3% reported at the end of Quarter 4 of 2016 with a continued trend of increasing into financial year 2017. The local retail vacancy rate is higher when compared to the estimated Chicagoland retail vacancy rate of 7.2%. The industrial vacancy rate on the other hand has shown a decrease from the previous year with the latest rate of 4.6% as of the end of Quarter 4 of 2016, and with a continuing trend of decreasing into financial year 2017. The local industrial vacancy rate was also favorable when compared to the estimated Chicagoland industrial vacancy rate of 6.4%.

Interest in new construction remained high with several new projects getting underway or completed between mid-2016 and December 2016, converting an 88,000 sq.ft. industrial warehouse building to a self-storage facility; the significant expansion of three industrial buildings – a 137,787 sq.ft. manufacturer of septic and drainage products with a 24,000 sq.ft. addition; a 24,000 sq.ft. high precision turning and milling company with a 20,000 sq.ft. addition, and an approximately 500,000 sq.ft. manufacturer of professional-grade, hand-held outdoor power equipment with a 50,000 sq.ft. two-story office addition. Construction of a new 12,000 sq.ft. funeral home and 3 new single-family residences are in progress.

Multiple projects began and/or completed the zoning entitlement process, the most notable of which included a 48-unit apartment project in downtown Lake Zurich and a 162-unit apartment project with 19,000 sq.ft. of retail space on Rand Road. The Village entered into one economic incentive agreement with the developer of the 48-unit apartment project in downtown, and began discussion on another agreement for the 162-unit apartment project on Rand Road. The Village also began the implementation of its third TIF district known as the Rand Road TIF district that will benefit a number of commercial properties along the west side of Rand Road between Honey Lake Road and IL Route 22.

The Village also streamlined its development review process to facilitate a more business friendly approach, including removing the requirement for inspections of new roofs and reducing the roofing permit fee from \$72 to \$40; changing the requirements for site plan review and exterior appearance review to an administrative process, thereby reducing review time from approximately 45-60 days to 10-15 business days; addressing Natural Resource Protection provisions through the engineering regulations of the Village; and making Courtesy Reviews for new development projects optional, thereby removing a step on smaller and less significant development applications.

The Village is directly impacted by the financial condition of the State of Illinois. Due to the state's budget shortfall, shared revenue payments to the Village continue to lag. The State is looking at freezing property tax rates and/or reducing revenue sharing with local governments, both of which could be of severe financial detriment to the Village. We are closely monitoring the political environment in Springfield. Either change alone would further decrease the resources available to the Village, especially if both are adopted, and in turn the level of services we can provide our residents would likely be impacted. As a non-home rule community, options for replacing the lost revenue are virtually non-existent.

Long-Term Financial Planning: The Village uses a number of processes and resultant planning documents to accomplish its financial planning. As discussed above, the Village adopts an annual budget. The village board adopted the formal Capital Improvement Plan in January 2016, forecasting out funding needs for capital items that are expected to exceed \$10,000 and have a useful life of more than a year, such as road improvements, large machinery and equipment, and building improvements. Priorities will be given to items that 1) protect human health, 2) preserve private and public assets and 3) enhance the quality of life.

The Finance Department has developed five-year financial forecasts for funds, which are updated at least quarterly. These forecasts project revenues, expenditures, fund balance levels, and cash and investment levels. The forecasts are used for purposes of monitoring the long-term financial outlook of the Village, determining available funding for the capital projects, and assisting the Village Manager in setting budget goals for department directors.

Major Accomplishments and Initiatives for Fiscal Year 2016B

The fiscal year ended December 31, 2016 saw many accomplishments and major initiatives come to fruition, including:

- Approved the Streets of Somerset multi-family development on the northwest corner of Old Rand Road and Main Street. This development will increase residential capacity downtown in the form of 48 apartment units and hopefully lead to new economic development opportunities in the area.
- Coffee with the Mayor began in August 2016. This monthly event provides residents an opportunity to discuss pressing issues with the Mayor and Village Manager.
- Lake Zurich reaffirmed its AAA Bond Rating from Standard and Poors, which speaks to the sound financial management of the Village.
- New establishments opened in the Village include the Secretary of State Office and Consume. These are just a few of the many businesses recently deciding to locate in Lake Zurich, demonstrating the Village is a popular location and that businesses can be successful here.
- Installed \$3 Million in Sewer Lining on the Village's sanitary sewer transmission main, part of the Village's continuing efforts to stabilize and maintain its infrastructure.
- The Village planted \$50,000 worth of parkway trees on residential property in the first stage of ongoing efforts to revitalize the Village after losing all ash trees to the Emerald Ash Borer.
- A new right turn lane and sidewalk along the intersection of Ela Road and Route 12 aims to increase ease of traffic flow, reduce congestion, and improve pedestrian safety.
- Community engagement events such as Shop with a Cop, Blue and You, and the Fire Department Open House aimed to increase the community's familiarity with public safety personnel.
- Village transitioned to a calendar based fiscal year. This will allow the Village to more competitively bid for construction contracts and align its finances with typical fiscal year deadlines.
- Initiated the Rand Road TIF District to assist with the K-Mart Redevelopment by Garden Homes. They plan to bring 162 luxury apartment units with retail space to the former K-Mart property on Rand Road.
- Transitioned to IPBC employee health insurance pool, resulting in over \$100K in savings for the Village and will continue providing excellent health insurance at a reduced cost for Village employees.
- Streamlined the courtesy review, site plan review, and exterior review processes to allow routine projects to move more quickly through the process and reserve extensive feedback for larger, more significant projects.
- The Park and Recreation Department received ACA Accreditation for its summer camp programs. The Accreditation demonstrates a high quality program that provides for the safety and growth for camp attendees.
- Initiated a performance contract with Siemens to install new automated water meters in select locations throughout the Village. These meters more accurately track water usage throughout the Village, eliminate the need to be manually read, and will help identify leaks throughout the Village.
- Village hosted 37 special events, celebrating the community, positively impacting the Village's image in the region, and giving residents a reason to explore the community.

- The Village revised the Liquor Code, reducing the total number of classes and expanding the variety of licenses available. The condensed code allows for greater flexibility for new businesses and eases enforcement efforts for the Village. This will allow the Village to attract a greater diversity of establishments such as the craft brewery Roaring Table, which is expected to open in summer 2017.

Some of the more significant initiatives planned for the 2017 fiscal year are as follows:

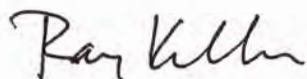

- Establish the Rand Road TIF District.
- Design and implement a new annual Community Investment Plan (CIP) process to prioritize Village infrastructure projects to align with the Strategic Plan and evolving Village needs.
- Explore project concepts for Block A.
- Continue the water performance project to improve water efficiency and reduce unaccounted for water loss
- Continue the parkway replacement program with another 200 +/- trees.
- Review and revise the service agreement with the Lake Zurich Rural Fire Protection District and Lake Property Owner's Association.
- Conduct and Analyze the 2nd National Citizen Survey allowing the Village to identify trends in responses and shape future policy based on resident feedback.
- Update the Comprehensive Plan and Zoning Code to more accurately reflect the future goals and policy direction for the Village.

Awards and Acknowledgements

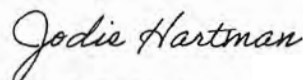

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Village of Lake Zurich for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended April 30, 2016. This represented the twenty-eighth consecutive year that the Village has received this prestigious award. In order to be awarded a Certificate of Achievement, the Village must publish an easily readable and efficiently organized CAFR that satisfies both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that this CAFR continues to meet the Certificate of Achievement Program's requirements and are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. In particular, we would like to acknowledge the work of Miriam Hernandez, Accounting Supervisor, and Mark Williams, Accountant. The Village President and Village Board of Trustees must be acknowledged and thanked for setting the highest standards of professionalism in the oversight and management of the Village's finances.

Respectfully submitted,

Ray Keller

INDEPENDENT AUDITOR'S REPORT

The Honorable President
Members of the Board of Trustees
Village of Lake Zurich, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Village of Lake Zurich, Illinois (the Village), as of and for the eight months ended December 31, 2016 and the related notes to financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Village's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Lake Zurich, Illinois, as of December 31, 2016, the respective changes in financial position and, where applicable, cash flows thereof for the eight months then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, supplemental data and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules and supplemental data are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and supplemental data are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Sikich LLP

**GENERAL PURPOSE EXTERNAL
FINANCIAL STATEMENTS**

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

This section of the financial report is management's overview and analysis of the financial position and financial performance of the Village of Lake Zurich for the fiscal year ended December 31, 2016. This was an eight-month fiscal year as the village transitions to a calendar year fiscal year for 2017 forward. This statement should be read along with the transmittal letter and financial statements for the most complete understanding of the Village of Lake Zurich's financial activities for the year.

FINANCIAL HIGHLIGHTS

VILLAGE FUNDS AS A WHOLE:

- Total assets of the village exceeded liabilities by \$81 million.
- Total net position of the village increased \$3.1 million
- Combined revenues totaled \$30.6 million. While this is 21% lower than the preceding year, the fiscal year only covered eight months of activity versus the previous year of twelve months.
- Overall expenses totaled \$27.5 million for the eight months, compared to the preceding twelve month fiscal year of \$35.9 million, a 23% decrease.

GENERAL FUND:

- Fund balance increased by \$365k.
- Total fund balance at the end of the year was \$10.5 million, of which \$1.7 million was nonspendable as advances to other funds, inventory and prepaid expenditures.
- Cash and investments totaled \$7 million.

BUSINESS-TYPE ACTIVITIES (Water and Sewer Fund)

- Net position decreased \$212k, as bond proceeds were spent down for major capital projects.
- Total net position at the end of the year was \$43 million, of which \$39.9 million was invested in fixed assets and \$3.1 million in unrestricted funds.
- From an operations perspective, the fund had operating loss of \$168k for the year.
- Working capital of the fund decreased from \$5 million to \$4.1 million. Remaining bond proceeds of \$778k were spent before year end, primarily on the segment sewer lining and repairs to the sewer line.

LONG-TERM DEBT

- Total long-term debt decreased \$6.4 million to \$83.6 million outstanding as of December 31, 2016.
- Bonded debt alone increased \$770k to \$31.4 million outstanding as of December 31, 2016.

CAPITAL ASSETS

- Total capital assets, net of accumulated depreciation, increased \$1.5 million to \$130 million.
- Capital assets for governmental activities, net of accumulated depreciation, increased \$353k to \$84.6 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

In accordance with generally accepted accounting principles, the village presents its financial statements so as to offer two perspectives of its financial position and results of operation. The government-wide perspective presents financial information for the government as a whole. The fund perspective involves the presentation of financial information for individual accounting entities established by the village for specific purposes. The focus of the fund statements is on major funds. Both perspectives (government-wide and major fund) address likely user questions, provide a broad basis for comparison, and enhance the village's accountability.

VILLAGE OF LAKE ZURICH MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2016

Government wide statements

The government-wide statements are intended to provide a view of the financial position and operations of the Village of Lake Zurich in a manner similar to the private sector. These statements provide a long-term view of the financial position of the Village of Lake Zurich. The *Statement of Net Position* reflects all of the Village's assets, liabilities, with the net difference between the two reported as net position. Over time, the change in net position may serve as a useful indicator to reflect the improving or deteriorating position of the Village.

The government-wide *Statement of Activities* reflects the change in Village net position for the current year. These activities are reported on a full accrual basis. Thus revenues and expenses are recorded as they are incurred, regardless of when cash flow is affected. Both the *Statement of Net Position* and the *Statement of Activities* include the Village's governmental and business-type activities.

Governmental activities encompass general government, public safety, highways and streets, culture and recreation and economic development. In general, taxes and intergovernmental revenues support governmental funds. The business-type activities of the Village consist of water and sewer operations, which are funded primarily from user fees. Revenues generated from water and sewer operations are intended to cover all or a significant amount of total costs. The government-wide financial statements can be found on pages 4-7 of this report.

Fund Financial Statements

The Village of Lake Zurich utilizes fund accounting. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Fund accounting is used to ensure and demonstrate compliance with specific financial and legal requirements. The Village of Lake Zurich has three fund types; governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds included in the fund financial statements are fundamentally the same as those reflected in the government-wide statements. The major difference is that the fund statements focus almost entirely on the short-term with emphasis on fiscal responsibility with relation to the current budgetary year. As such, the statements are prepared on the modified accrual basis. A reconciliation provided on the face of the governmental fund financial statements provides those items that were used to convert the fund modified accrual basis to the governmental-wide full accrual basis.

The Village of Lake Zurich has fourteen governmental funds to account for governmental functions. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, TIF Tax Allocation, Debt Service, TIF Debt Service, Capital Improvements, Downtown TIF Capital and the Downtown TIF #2 Funds, all of which are considered to be "major" funds. The purposes of these major funds are as follows:

The General Fund is the general operating fund for the Village and is utilized to account for all activity that is not accounted for in another fund.

The TIF (#1) Tax Allocation Fund accounts for all revenues and transfers to pay for administrative, debt service, and capital improvement activity necessary to stimulate and induce redevelopment of Downtown Lake Zurich pursuant to the Tax Increment Finance (TIF) Act.

VILLAGE OF LAKE ZURICH MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2016

The Downtown TIF #2 Special Revenue Fund captures all the costs and revenue associated with the construction and improvements to TIF District #2.

The Debt Service Fund accounts for the accumulation of financial resources to pay principal and interest for general obligation bond issues, including the debt generated by the establishment of the Tax Increment Financing District.

The TIF Debt Service Fund accounts for the accumulation of financial resources to pay principal and interest expenses generated related to TIF District #1.

The Capital Improvements Fund accounts for the financial resources used for the acquisition and construction of capital projects. This includes street construction costs financed by the motor fuel tax allocation and park facility improvements financed by park donations, grants and contributions.

The Downtown TIF Capital Projects Fund captures all the costs and revenue associated with the construction and improvements to TIF District #1.

Data from the other seven (7) funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in the report. Budgetary comparisons are included at the fund level in the combining and individual fund financial statements. The basic governmental fund financial statements can be found on pages 8 through 13 of this report.

Proprietary Funds

The Village of Lake Zurich maintains one proprietary fund – the Waterworks and Sewerage Fund. This proprietary fund is categorized as an enterprise fund, which are used to report the same functions presented as business-type activities in the government-wide financial statements. Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. As proprietary funds are reported on a full accrual basis, the Village of Lake Zurich fund statements for its Waterworks and Sewerage fund mirror the government-wide statements. The basic proprietary fund financial statements can be found on pages 14 through 18 of this report.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the government. Hence, fiduciary funds are not included in the government-wide statements, as their resources are not available to support the Village's own programs. The Village of Lake Zurich has three fiduciary funds – the Police Pension Fund, the Firefighters Pension Fund, and the Performance Escrow Fund. Like proprietary funds, fiduciary funds are accounted for on a full accrual basis. The basic fiduciary fund statements can be found on pages 19 and 20 of this report.

Notes to the Financial Statements

The notes to the financial statements provide information that is critical to the full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statement are on pages 21 through 73 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Included in this report is a budgetary comparison statement for the General Fund and the special revenue funds, as well as information regarding the Village's progress in funding its obligation to provide pension and other postemployment benefits to its employees. This information is available on pages 74 through 86.

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

Amendments to Budget

Amendments to the budget are typically made throughout the year. The Village Manager, as Budget Officer, is authorized to implement a budget transfer between accounts within the same object class, provided it is within the same department and fund. No transfers were authorized by the Budget Officer during the year. Budget transfers between object classes and any increases or decreases to the total budget must be approved by the Village Board. One (1) budget amendment was approved during the fiscal year.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position

The combined net position for the eight month fiscal year ended December 31, 2016 totaled \$80.9 million and consisted of net position from both governmental activities and business-type activities of \$37.9 million and \$43 million respectively. Following is a table that shows total net position of the Village as of December 31, 2016 with a comparison to the preceding fiscal year. Note: The historical data for fiscal year ending April 30, 2016 is for twelve months of activity compared to eight months of activity for fiscal year ended December 31, 2016.

Statement of Net Position

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

The Village's net investment in capital assets (e.g., land, buildings, machinery and equipment, and infrastructure less any related debt used to acquire those assets still outstanding), is by far the largest portion of the Village's net position. As of December 31, 2016, capital assets net of related debt totaled \$122.5 million. The Village uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

In the governmental activities, the total net position increased by \$3.3 million. Fund balance for the Debt Service Fund increased by almost \$500k to accumulate resources for January principal and interest payments. With better than expected performance of the General Fund, additional funds were transferred to the Capital Improvement Fund to accumulate resources for upcoming capital needs. General Fund was still able to post a surplus of \$365k. This is primarily due to the shortened fiscal year. As an example of the unique circumstances around the fiscal year change, the short fiscal year received a full annual distribution of property taxes without a full year of operational expenditures.

Cash and investments for governmental activities increased \$2 million. Total assets and deferred outflows for the governmental activities increased to \$133 million. Total liabilities shrunk slightly, sitting just over \$95 million.

For the business-type activities, total net position decreased by \$212k. Residual bond funds were drawn-down during the year to fund major capital projects, such as the sewer segment lining project. Non-capital assets (cash, investments, receivables, etc.) decreased by roughly \$910k. Total liabilities increased \$356k, which includes the issuance of \$1 million in new debt for capital projects. The village continues to pay down existing debt.

During the current fiscal year, total net position of the Village improved by \$3.1 million. A more detailed explanation of the change in net position of the governmental activities and business-type activities is provided in the following sections.

**VILLAGE OF LAKE ZURICH

| Beginning net position | 34,585,399 | 32,405,628 | 43,209,144 | 42,489,361 | 77,794,543 | 74,894,989 |
| Ending net position - April 30 | 37,932,543 | 34,585,399 | 42,996,598 | 43,209,144 | 80,929,141 | 77,794,543 |

Governmental Activities

As is typical for governmental activities of local governments, program revenues cover a small percentage of program expenses, with general revenues covering the majority of expenses. For fiscal year 2016B, governmental program expenses of \$23.7 million exceeded program revenues of \$7 million by \$16.6 million. General revenues of \$20 million made up for the deficiency.

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

Revenues

The following graph indicates the breakdown of 2016B revenues by type.

Total revenues of \$27 million were lower than last year, which is to be expected with only eight months instead of twelve in a full fiscal year. While the fiscal year has 33% less days, revenues were only down by 19%. No new major revenue sources were implemented, however the timing of the May through December fiscal year allowed for a full-year of property tax distributions and other seasonal revenues such as camps and permitting.

Utility taxes have been fluctuating, particularly the gas tax. Rates have been lower than recent history due to the increased supply from fracking. The tax on electric has been balancing on the gas tax. Overall, the two taxes combined were at \$850k for the year, down the expected 33% from the prior year for the short period. The telecommunications tax has been unpredictable in the past few years. Receipts for the short year were down 39% at \$518k. Receipts have been declining due to changes in how customers receive their phone service, such as free long-distance with most cellular plans.

Sales tax revenue came in at \$6.1 million, a 30% decrease for the short year. Compared to losing 33% of the fiscal year, the revenue source is showing as stable with conservative increases. Lake Zurich's mix of retailers has weathered the recession better than localities that are selling more luxury or specialty products.

The State Income Tax receipts of \$1.2 million have dropped considerably compared to the prior year, down approximately \$900k from last year (43%). The State has declared additional credits for businesses not previously offered, decreasing the amounts available for distribution to local governments.

Charges for Services make up just under 25% of the village's governmental revenue. Charges for services decreased by 22% for the short year, coming in at \$6.66 million.

VILLAGE OF LAKE ZURICH MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2016

Expenditures

Governmental activity expenditures represent the costs to operate the village core services, excluding the water and sewer service. The following pie chart shows the breakdown of governmental expenditures by activity.

Expenditures associated with governmental activities decreased for the short year by \$7.5 million, or 24%, from the preceding year. By far the most significant category of expenditures relate to public safety, which totaled \$16 million of the total \$24 million. Public safety expenditures included a full-year of contributions to both the Police and Firefighters' Pension Funds, taking advantage of the full revenue and opportunity to increase funding status. Pension contributions for these two funds increased \$129k (4%) from the prior year and made up about 22% of total public safety expenditures for the short year.

Business Type Activities

For business-type activities, net position decreased a total of \$212k. Program revenues of \$3.5 million exceeded program expenses of \$3.8 million. Depreciation of water and sewer fund capital assets is a large portion of the expenses at \$1.1 million (31% of operating expenses).

Revenues associated with business-type activities totaled \$3.5 million, down 28% for the short year. Charges for services decreased from \$5.4 to \$3.5 million (34%). Consumption continues to report at lower than seven year averages, reducing the billed charges for services. An increase to water and sewer rates was effective the first day of the fiscal year, countering some of the effect of the reduced consumption figures.

Business-type expenses decreased \$907k compared to the prior fiscal year, down to \$3.8 million from \$4.7 million in fiscal 2015/16. The village has prioritized a few large capital projects for the past two years, utilizing bond funds specifically issued to address these concerns. As the infrastructure continues to age, capital expenses will continue to be a large drain of resources for this fund.

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

FINANCIAL ANALYSIS OF GOVERNMENT FUNDS

Governmental Funds

As noted earlier, the focus of fund reporting is the short-term inflow and outflow of expendable resources. Fund balance is a useful indicator in assessing available resources with respect to meeting future obligations.

At December 31, 2016 governmental funds reported combined fund balances of \$21 million. Of this amount, \$7 million is unreserved and is available for future obligations. About \$12 million is restricted, with \$4.9 million restricted for Tax Increment Financing (TIF), \$2.5 million for capital projects and \$1.3 million for debt service. The remainder of restricted funds relate to special recreation, public safety, highway and streets, special events and a small amount for tourism, generated by the hotel tax.

GENERAL FUND:

The General Fund is the Village's primary operating fund. For the fiscal year ended December 31, 2016, fund balance in the General Fund increased by \$365k from current year activities. Change to fund balance is a combination of revenues of \$21.8 million compared to expenditures of \$20 million. Other financing uses of \$1.4 million are also included, representing a transfer of \$1 million to the Capital Improvement Fund, and \$115k to the Special Events Fund and \$310k to the Equipment Replacement Fund. After all activity and adjustments are accounted for, the General Fund has an ending fund balance of \$10.5 million.

OTHER MAJOR FUNDS:

- The TIF Tax Allocation Fund has a fund balance of \$50k, restricted entirely for TIF purposes. This is \$18k higher than the previous year.
- The Debt Service Fund has a positive fund balance of \$1.3 million that is restricted entirely for the payment of future debt service. This is \$485k higher than the previous year, as funds were set aside for the upcoming principal and interest payments in January 2017.
- All fund balance of the TIF Debt Service Fund, -\$1 million, is restricted for payment of future debt service. This is \$241k higher than the previous year. The TIF Debt Service Fund has received a long-term advance of over \$1.5 million to cover its expenditures to date. Now that the TIF has been extended, the debt restructured and several negative increment parcels removed, the TIF is working on rebuilding the fund balance of future years.
- The Capital Improvements Fund fund balance increased about \$1 million to \$1.8 million. The majority of the increase is due to advanced funding from the General Fund for upcoming capital projects. \$304k of this fund balance is earmarked for noise mitigation related to the CN rail, which will be drawn down over the next few fiscal years.
- The Downtown TIF Fund had no activity for the year, holding the fund balance to -\$182,000. The fund has received \$185,000 from the General Fund as a long-term advance to cover expenditures to date. Now that the TIF has been extended, the debt restructured and several negative increment parcels removed, the TIF is working on rebuilding the fund balance of future years.
- The Downtown TIF Fund #2 increased fund balance by \$47k over the year. The first distribution of increment was received during the fiscal year at \$61k. Fund balance at year-end of \$4.9 million is restricted entirely for TIF purposes, nearly all of which is land held for resale.

VILLAGE OF LAKE ZURICH MANAGEMENT'S DISCUSSION AND ANALYSIS

December 31, 2016

Proprietary Funds

The focus for the proprietary fund at the fund level is synonymous with that found at the government-wide level. Reporting is on a full-accrual basis with short-term and long-term emphasis on financial data. The Waterworks and Sewerage Fund is the sole proprietary fund for the Village of Lake Zurich. This fund records all financial activity relating to the municipality's water and sewer operations. The Waterworks and Sewerage Fund provides the same type of information in the government-wide financial statements reflected as "Business-type" activities, but in more detail.

At December 31, 2016, net position of the proprietary fund totaled \$43 million. Cash and investments totaled \$5 million, a decrease of \$642k (-11%). Bond proceeds from the 2013A issuance of \$778,000 were spent during the year to wrap up the sewer lining project. This was a major factor in working capital decreasing from \$5 million to \$4 million. Operating revenues for the short year decreased 28% from the previous year to \$3.5 million. Despite the rate increase to the Lake Zurich portion of water bills that took effect May 1, 2016, consumption was down dramatically over the prior year due to weather, changes to water usage behaviors and old meter equipment. Operating expenses (including depreciation) of \$3.6 million were 20% lower than the previous year. Depreciation decreased by \$561k (33%), on par with the shortened fiscal year.

Fiduciary Funds

Police and Firefighters' Pension Funds: The Village's two single-employer pension plans experienced growth in the fiscal year ended December 31, 2016. Combined, the funds reported a \$4 million increase in plan fiduciary net position. Investment earnings (net related expenses) posted a combined gain of \$1.6 million between the two funds in just eight months. This is a vast improvement over the previous year which lost \$85k in twelve months. Cash and investments totaled \$48.5 million as of December 31st.

Agency Funds: The village has several agency funds, including an escrow performance fund and several special service area funds. These funds do not have budgets, nor do they have measures of operations. They are used to account for assets and liabilities of funds kept in a custodial manner. Total assets of agency funds increased over last fiscal year by \$121k, primarily as reductions to deposits payable. Total cash and investments as of December 31, 2016 was \$1.9 million, about \$111k higher than the end of the previous fiscal year. The activity of the special service areas has been broken out from the escrow performance fund activity for transparent reporting.

GENERAL FUND HIGHLIGHTS

Amendments to Budget

The Village Manager as Budget Officer is authorized to implement a budget transfer between accounts within the same object class, provided it is within the same department and fund. Budget transfers between object classes and any increases or decreases to the total budget must be approved by the Village Board. The revenues and expenditures were monitored closely throughout the year compared to stay in compliance with the fund level budgetary policy.

One budget amendment was approved for this fiscal year that affected the General Fund. Revenues were decreased by \$105k. Of that amount, \$100k is attributable to lower than originally anticipated income tax receipts. The budget for expenditures also decreased by \$110k for the General Fund. No major adjustments were made to individual expenditure accounts, however health insurance charges across departments were reduced by \$100k to match expectations for actual expenses. With additional savings apparent, increases were made to transfers to out to the Capital Improvement Fund and the Equipment Replacement Fund to help fund several upcoming expensive but necessary capital projects and replacements.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

Change in Fund Balance

General Fund

When the original budget was adopted in April of 2016, a surplus of \$37k was expected for the General Fund. After the budget amendments, the expected surplus was adjusted to \$42k. The actual Fund Balance for General Fund, however, shows a surplus at year-end of \$365k. Revenues and other financing sources came in at \$21.8 million for the year, \$330k more than budgeted. Expenditures totaled \$20 million, which was \$653k less than budgeted, which allowed for an increase to other financing uses (transfers out). Transfers out to other funds were increased by \$660k. Overall, expenditures and other financing uses totaled \$21.5 million, just \$7k higher than budgeted. The following table summarizes General Fund revenues and expenditures, with a comparison to budget, for the fiscal year ended December 31, 2016.

**General Fund Budgetary Highlights
Fiscal Year Ended December 31, 2016**

| | Final Budget | Actual |
|---|----------------------|----------------------|
| Revenues & Other Financing Sources | | |
| Taxes | \$ 8,976,735 | \$ 8,979,002 |
| Licenses and permits | 316,810 | 342,861 |

CAPITAL ASSETS

The Village of Lake Zurich's investment in capital assets, net of accumulated depreciation, amounted to \$130 million at December 31, 2016. The investment includes land, buildings, improvements, machinery and equipment, vehicles and infrastructure as follows:

| | Governmental Activities | | Business-type Activities | | Total | |
|---------------------------|--------------------------------|----------------------|---------------------------------|----------------------|-----------------------|-----------------------|
| | FYE 16B | FYE 16 | FYE 16B | FYE 16 | FYE 16B | FYE 16 |
| Land and Improvements | \$ 34,719,760 | \$ 34,908,979 | \$ 249,652 | \$ 249,652 | \$ 34,969,412 | \$ 35,158,631 |
| Building and Improvements | 7,794,806 | 7,918,172 | - | - | 7,794,806 | 7,918,172 |
| Machinery & Equipment | 1,225,016 | 1,231,246 | 897,010 | 825,036 | 2,122,026 | 2,056,282 |
| Vehicles | 1,648,584 | 1,639,489 | 122,722 | 137,583 | 1,771,306 | 1,777,072 |
| Other | 1,653,644 | 381,708 | 3,259,769 | 2,054,919 | 4,913,413 | 2,436,627 |
| Infrastructure | 37,527,853 | 38,136,893 | 41,048,488 | 41,118,279 | 78,576,341 | 79,255,172 |
| Total | <u>\$ 84,569,663</u> | <u>\$ 84,216,487</u> | <u>\$ 45,577,641</u> | <u>\$ 44,385,469</u> | <u>\$ 130,147,304</u> | <u>\$ 128,601,956</u> |

Capital additions for the year totaled \$656k for governmental funds and \$3.3 million for the business-type activities of the water and sewer fund. Additions included the following major projects:

Governmental Funds:

- \$101k on Building Improvements, for roof, siding and window replacements for the Paulus Park Barn building, which houses the Park and Recreation department and various programming.
- \$110k on Machinery and Equipment, for dispatch radio consoles, Starcom radios, extrication equipment and a skid steer for Public Works
- \$187k on Vehicles, for four police vehicles and a patrol boat.
- \$255k on Infrastructure, for stormwater improvements to Lot 42.

Business-Type Fund:

- \$1 million on Infrastructure, for improvements to the Cuba Road sewer line.
- \$109k on Machinery and Equipment, for a replacement backhoe.
- \$2.2 million in construction in progress, for the ongoing work on the sanitary transmission lining project.

Additional information on the Village's capital assets is presented in the notes to the basic financial statements on pages 32 and 33.

MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

DEBT ADMINISTRATION

During the fiscal year, bonded debt was increased by \$770k. Series 2016 was issued for \$1,086,000 on a short-term basis and was repaid before the end of the fiscal year. Series 2016A was the result of refunding the Series 2009A bonds for interest savings. Series 2016B was for \$1 million in water bonds to fund the Cuba Road emergency sewer repairs.

The village maintains a AAA, stable outlook, bond rating from Standard and Poors, which had been upgraded from AA in 2013. Maintaining the AAA stable was based on the following factors:

- Very strong economy, with a projected per capita buying income at 167% the national average.
- Very strong budgetary flexibility
- Strong overall budgetary performance.
- Strong debt and contingent liabilities profile.

Additional information on the Village's long-term debt is presented in the notes to the basic financial statements, note seven (7), on pages 36 through 42.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The Village is directly impacted by the financial condition of the State of Illinois. The political environment in Springfield is being closely monitored for legislation that could reduce or eliminate the shared revenue, and in turn impact the level of service to the residents. While the State is not withholding anything significant at this time, the Village expects to experience delays of funds from the State until the budget crisis is resolved.
- The Illinois Department of Revenue certified the CPI used for calculating the Village's 2017 Tax Levy to be 2.1%. Any increase in CPI along with the value of new construction will be used to offset the growing cost of funding for both police and fire pension funds for the village.
- The new downtown TIF district has begun to see serious interest from the development community. With the first distribution of increment received during 2016 and a healthy interest from the development community, the Village hopes to see several projects come to fruition within the next few years.

**VILLAGE OF LAKE ZURICH
MANAGEMENT'S DISCUSSION AND ANALYSIS**

December 31, 2016

- Minimizing retail vacancies continue to be a priority for the village, as sales tax is a significant revenue source. The village will continue to monitor economic trends relating to retail sales and adjust forecasts/spending as appropriate.
- Two of the four union contracts expire mid-2017 but both were successfully negotiated and ratified before expiration. Negotiated salary and benefit increases were reasonable and in-line with market conditions, allowing for increased stability in the operating budget of the village.

The above factors were taken into consideration for funding and planning purposes for current and future fiscal years. At December 31, 2016 the unrestricted fund balance of the General Fund was 30% of total expenditures of the upcoming year. Village policy states a minimum unrestricted fund balance be maintained of 25% with a target of 40%.

The Water/Sewer Fund had cash and investments of \$5 million at December 31, 2016. The fund also had unrestricted net position of \$3.1 million. The Village monitors both revenues and expenses to determine the rate levels necessary to cover the maintenance and long term replacement infrastructure needs of the Water/Sewer Fund. The Village Board approved a rate increase effective January 1, 2017.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Village of Lake Zurich's financial position and activities for the fiscal year ended December 31, 2016. Questions and requests for additional information should be directed to the Finance Director, Village of Lake Zurich, 70 E. Main Street, Lake Zurich, Illinois 60047.

**RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET POSITION**

December 31, 2016

| | |
|--|-----------------------------|
| FUND BALANCES OF GOVERNMENTAL FUNDS | \$ 20,981,659 |
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds | |
| Total governmental capital assets | \$ 84,569,663 |
| Less internal service fund portion | <u>1,317,544</u> 83,252,119 |
| The loss on refunding of bonds is capitalized as amortized over the life of the bonds on the statement of net position | 3,289,836 |
| Certain assets are not available to report as revenue in the governmental funds but are revenue on the accrual basis of accounting | 379,299 |
| Net pension liability for the Illinois Municipal Retirement Fund is shown as a liability on the statement of net position | (3,459,455) |
| Differences between expected and actual experiences, assumption changes, net differences between projected and actual earnings and contributions subsequent to the measurement date for the Illinois Municipal Retirement Fund are recognized as deferred outflows of resources on the statement of net position | 662,224 |
| Net pension liability for the Police Pension Fund and Firefighters' Pension Fund are shown as a liability on the statement of net position | (42,900,214) |
| Differences between expected and actual experiences, assumption changes, net differences between projected and actual earnings and contributions subsequent to the measurement date for the Police Pension Fund and Firefighters' Pension Fund are recognized as deferred outflows and inflows of resources on the statement of net position | 1,832,867 |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds | |
| Bonds payable | (27,430,000) |
| Unamortized premium | (313,877) |
| Other postemployment benefit payable | (179,646) |
| Compensated absences payable | (1,250,414) |
| Capital lease obligation | (551,196) |
| Accrued interest payable | (329,115) |
| The net position of the internal service funds is included in the governmental activities in the statement of net position | <u>3,948,456</u> |
| NET POSITION OF GOVERNMENTAL ACTIVITIES | <u>\$ 37,932,543</u> |

See accompanying notes to financial statements.

VILLAGE OF LAKE ZURICH, ILLINOIS

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Eight Months Ended December 31, 2016

| | |
|--|----------------------------|
| NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS | \$ 1,759,677 |
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Governmental funds report capital outlay as expenditures; however, they are capitalized and depreciated in the statement of activities | |
| Capital assets purchased | 1,630,395 |
| The gain (loss) on disposal of capital assets is reported on the statement of activities as a reduction/increase of expense | (3,617) |
| Some expenses in the statement of activities (e.g., depreciation) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds | (1,570,716) |
| The change in the net pension liability for the Illinois Municipal Retirement Fund is reported only in the statement of activities | 202,288 |
| The change in deferred inflows and outflows of resources for the Illinois Municipal Retirement Fund is reported only in the statement of activities | (507,228) |
| The change in the net pension liability for the Police Pension Fund and the Firefighters' Pension Fund are reported only in the statement of activities | 6,314,032 |
| The change in deferred inflows and outflows for the Police Pension Fund and the Firefighters' Pension Fund are reported only in the statement of activities | (6,909,740) |
| The payment to escrow agent for the refunding of long-term debt is reported as an other financing use in the governmental funds but as | |
| A decrease of principal outstanding in the statement of net position | 5,990,000 |
| An increase of premium outstanding in the statement of net position | (5,625) |
| Loss on refunding amortized over the life of the bonds | 905,807 |
| The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal on long-term debt consumes the current financial resources of the governmental funds | |
| Change in compensated absences payable | 394,935 |
| Change in net other postemployment benefit payable | 1,390 |
| Issuance of debt | (7,861,000) |
| Retirement of debt | 1,701,000 |
| Amortization of loss on refunding | (269,027) |
| Amortization of premium/discount of debt issuance | 23,885 |
| Capital lease obligation payments | 48,394 |
| Changes to accrued interest on long-term debt in the statement of activities does not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds | 48,015 |
| The change in net position of certain activities of internal service funds is in governmental funds | 1,355,698 |
| Less internal service fund depreciation | 98,581 |
| CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES | <u>\$ 3,347,144</u> |

See accompanying notes to financial statements.

VILLAGE OF LAKE ZURICH, ILLINOIS

NOTES TO FINANCIAL STATEMENTS

December 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Village of Lake Zurich, Illinois (the Village) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Village's accounting policies are described below.

a. Reporting Entity

The Village was incorporated in 1896. The Village is a municipal corporation governed by an elected seven-member board. As required by GAAP, these financial statements present the Village (the primary government).

The Village's financial statements include:

Pension Trust Fund

Police Pension Employees Retirement System

The Village's police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary and two elected police employees constitute the pension board. The Village and PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a. Reporting Entity (Continued)

Firefighters' Pension Employees Retirement System

The Village's firefighters' employees participate in the Firefighters' Pension Employees Retirement System (FPERS). FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one elected pension beneficiary and two elected firefighters' employees constitute the pension board. The Village and FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's firefighters' employees and because of the fiduciary nature of such activities. FPERS is reported as a pension trust fund.

b. Fund Accounting

The accounts of the Village are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental, proprietary and fiduciary.

Governmental funds are used to account for all or most of the Village's general activities, including the collection and disbursement of restricted or committed monies (special revenue funds), the funds committed, restricted or assigned for the acquisition or construction of capital assets (capital projects funds) the funds committed, restricted or assigned for the servicing of long-term debt (debt service funds). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the Village (internal service funds).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

b. Fund Accounting (Continued)

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the Village. When these assets are held under the terms of a formal trust agreement, a pension trust fund is used. The Village has police and firefighters' pension funds. Agency funds are used to account for funds that the Village holds on behalf of others as their agent.

c. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. The effect of material interfund activity has been eliminated from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and standard revenues that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

The General (Corporate) Fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The TIF Tax Allocation Fund is used to account for all restricted revenues and to record fund transfers to pay for administrative, debt service and capital improvement activity necessary to stimulate and induce redevelopment of Downtown Lake Zurich pursuant to the TIF act.

The Debt Service Fund is used to account for the accumulation of restricted resources for, and the payment of, general long-term debt principal and interest.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The TIF Debt Service Fund is used to account for the accumulation of restricted resources for, and the payment of, TIF long-term debt principal and interest. The Village has elected to present this fund as a major fund.

The Capital Improvements Fund is used to account for all restricted, committed or assigned resources used for the acquisition of general capital assets including infrastructure capital assets. The Village has elected to present this fund as a major fund.

The Downtown TIF Fund is used to account for all restricted revenues and activities associated with improvements within the Tax Increment Financing District.

The Downtown TIF #2 Fund is used to account for all restricted revenues and activities associated with improvements within the Tax Increment Financing District.

The Village reports the following major proprietary fund:

The Waterworks and Sewerage Fund is used to account for the provision of potable water and wastewater treatment services to the residents of the Village. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

The Village reports pension trust funds as fiduciary funds to account for the Police Pension Fund and Firefighters' Pension Fund. The Village also reports agency funds to account for performance deposits (Escrow Performance Fund) for refundable deposits held by the Village to ensure the completion of public improvements by private developers that the Village holds on behalf of others as their agent and special service areas which accounts for receipts and disbursements related to maintenance within special service areas within the Village.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements (agency funds have no measurement focus). Revenues and additions are recorded when earned and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation
(Continued)

the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Operating revenues/expenses include all revenues/expenses directly related to providing enterprise fund services. Incidental revenues/expenses are reported as non-operating.

Governmental fund financial statements are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period. The Village recognizes property taxes when they become both measurable and available in the period intended to finance, generally within 60 days of year end. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Those revenues susceptible to accrual are property taxes, franchise taxes, licenses, interest revenue and charges for services. Sales tax, telecommunication tax, local use tax and motor fuel tax and fines owed to/collected by the state at year end on behalf of the Village also are recognized as revenue. Permit revenues are not susceptible to accrual because generally they are not measurable until received in cash.

The Village reports unearned and deferred/unavailable revenue on its financial statements. Deferred/unavailable revenues arises when a potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period for government funds. Unearned revenues arise when a potential revenue is measurable but not earned under the accrual basis of accounting. Unearned revenues also arise when resources are received by the Village before it has a legal claim to them or prior to the provision of services, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the Village has a legal claim to the resources, the liability and deferred inflows of resources for unearned and deferred/unavailable revenue are removed from the financial statements and revenue is recognized.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Cash and Investments

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Village's proprietary funds consider all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Investments

Investments with a maturity of less than one year when purchased and non-negotiable certificates of deposit are stated at cost or amortized cost. Investments with a maturity greater than one year when purchased and all investments of the pension trust funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Short-Term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans, if any, are classified as "interfund receivables/payables."

g. Advances to Other Funds

Noncurrent portions of long-term interfund loan receivables are reported as advances between funds in the fund financial statements.

h. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased.

i. Prepaid Items/Expenses

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items/expenses. Prepaid items/expenses are recorded using the consumption method.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

j. Capital Assets

Capital assets, which include property, plant, equipment, water and sewer system and infrastructure assets (e.g., roads, bridges and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial, individual cost in excess of \$10,000 to \$250,000 as shown in the table below, depending on classification and an estimated useful life in excess of one year.

All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Depreciation of buildings, equipment, water/sewer systems and vehicles is computed using the straight-line method over the following useful lives:

| | Threshold | Years |
|-------------------------|-----------|-------|
| Land improvements | \$ 25,000 | 20-30 |
| Buildings | 50,000 | 45 |
| Building improvements | 50,000 | 10-30 |
| Vehicles | 15,000 | 3-25 |
| Computers and software | 10,000 | 5 |
| Furniture and fixtures | 15,000 | 5-20 |
| Machinery and equipment | 25,000 | 10-30 |
| Infrastructure | 250,000 | 40-50 |

k. Compensated Absences

Vested or accumulated vacation leave, including related Social Security and Medicare, that is owed to retirees or terminated employees is reported as an expenditure and a fund liability of the governmental fund that will pay it in the fund financial statements and the remainder is reported in long-term debt. Vested or accumulated vacation leave and vested sick leave of proprietary funds at both levels and governmental activities at the government-wide level is recorded as an expense and liability as the benefits accrue to employees.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

l. Long-Term Obligations

In the government-wide financial statements and proprietary funds in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund financial statements. Bond premiums and discounts and gains/losses on refundings, are deferred and amortized over the life of the bonds using the bonds outstanding method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Gains/losses on refunding are reported as deferred inflows of resources.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

m. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

n. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities. None of the restricted fund balance result from enabling legislation adopted by the Village. Committed fund balance is constrained by formal actions of the Village's Board of Trustees, which is considered the Village's highest level of decision-making authority. Formal actions include ordinances approved by the Board of Trustees. Assigned fund balance represents amounts constrained by the Village's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the Village's Finance Director through the fund balance policy adopted by the Village Board of Trustees. Any residual fund balance of the General Fund and deficit fund balances in other funds are reported as unassigned.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

n. Fund Balance/Net Position (Continued)

The Village's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the Village considers committed funds to be expended first followed by assigned and then unassigned funds.

In the government-wide financial statements, restricted net positions are legally restricted by outside parties for a specific purpose. Net investment in capital assets represents the Village's book value of capital assets to construct or acquire the capital assets less any outstanding debt issued to construct said assets.

o. Interfund Transactions

Interfund services are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services and reimbursements, are reported as transfers.

p. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS AND INVESTMENTS

The Village and pension funds categorizes the fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

2. DEPOSITS AND INVESTMENTS (Continued)

The Village maintains a cash and investment pool that is available for use by all funds, except the pension trust funds. Each fund's portion of this pool is displayed on the financial statements as "cash and investments." In addition, investments are separately held by several of the Village's funds. The deposits and investments of the pension trust funds are held separately from those of other funds.

Permitted Deposits and Investments - Statutes and the Village's investment policy authorize the Village to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, obligations of states and their political subdivisions, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds and the Illinois Metropolitan Investment Fund (IMET).

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the state to pool their funds for investment purposes. Investments in Illinois Funds are valued at Illinois Fund's share price (\$1), the price for which the investment could be sold.

IMET is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. Investments in IMET are valued at IMET's share price (\$1), the price for which the investment could be sold.

It is the policy of the Village to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the Village and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objective of the policy is safety (preservation of capital and protection of investment principal), liquidity and yield.

a. Village Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Village's deposits may not be returned to it. The Village's investment policy requires pledging of collateral with a fair value of 110% of all bank balances in excess of federal depository insurance with the collateral held by the Village's agent in the Village's name. The Village had no uninsured uncollateralized deposits at December 31, 2016.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Village Investments

The following table presents the Village's investments in and maturities of debt securities as of December 31, 2016:

| | Fair Value | Investment Maturities (in Years) | | | |
|-------------------------|---------------------|----------------------------------|---------------------|-------------|-----------------|
| | | Less than 1 | 1-5 | 6-10 | Greater than 10 |
| Negotiable CDs | \$ 3,053,469 | \$ 1,625,184 | \$ 1,428,285 | \$ - | \$ - |
| U.S. agency obligations | 1,710,105 | 374,812 | 1,335,293 | - | - |
| TOTAL | \$ 4,763,574 | \$ 1,999,996 | \$ 2,763,578 | \$ - | \$ - |

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Village limits its exposure to interest rate risk by structuring the portfolio in a manner that provides sufficient liquidity to enable the Village to meet all operating requirements which may be reasonably anticipated in any fund. The investment policy limits the maximum maturity length of investments to three years from the date of purchase unless the funds invested are earmarked for a special purpose, in which case the maximum maturity length shall be five years from the date of purchase, but must coincide as nearly as possible with the expected use of the funds.

The Village has the following recurring fair value measurements as of December 31, 2016. The U.S. agency obligations and negotiable certificates of are valued using quoted matrix pricing models (Level 2 inputs).

Besides investing in security instruments authorized under state statute, the Village's investment policy does not further limit investment choices to mitigate credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity. The U.S. agency obligations are rated AAA and AA+ by Standard & Poor's (S&P).

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Village will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Village's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by the Village; in safekeeping by the Village's custodian bank; or by a third party bank trust department, acting as agent for the Village under the terms of a custody or trustee agreement executed by the bank and by the Village. Illinois Funds and IMET are not subject to custodial credit risk.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

2. DEPOSITS AND INVESTMENTS (Continued)

b. Village Investments (Continued)

Concentration of credit risk is the risk that the Village has a high percentage of their investments invested in one type of investment. The Village's investment policy states that no more than 25% of the Village's total investment portfolio may be invested in a single security type or with a single financial institution, with the exception of U.S. Treasury securities and authorized pools. At year end, the Village's investments in United States Government agencies securities and negotiable CDs represented 35.9% and 64.1%, respectively, of the Village's total investments. The negotiable CDs were held by various financial institutions.

The Village's investment policy does not specifically prohibit the use of or the investment in derivatives.

3. RECEIVABLES - TAXES

Property taxes for 2016 attach as an enforceable lien on January 1, 2016 on property values assessed as of the same date. Taxes were levied on December 12, 2016 by passage of a Tax Levy Ordinance. Tax bills are prepared by the County and issued on or about May 1, 2017 and August 1, 2017 and are payable in two installments, on or about June 1, 2017 and September 1, 2017. The County collects such taxes and remits them periodically.

The 2016 tax levy collections are intended to finance the 2017 fiscal year and are not considered available for current operations and, therefore, are shown as deferred/unavailable revenue.

4. CAPITAL ASSETS

Capital asset activity for the eight months ended December 31, 2016 was as follows:

| | Beginning Balances | Increases | Decreases | Ending Balances |
|--|-----------------------|-----------|-----------|--------------------|
| GOVERNMENTAL ACTIVITIES | | | | |
| Capital assets not being depreciated | | | | |
| Land | \$ 30,463,170 | \$ - | \$ - | \$ 30,463,170 |
| Construction in progress | 381,708 | 1,496,042 | 224,106 | 1,653,644 |
| Total capital assets not being depreciated | 30,844,878 | 1,496,042 | 224,106 | 32,116,814 |

4. CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENTAL ACTIVITIES

| | |
|------------------------|----------------|
| General government | \$ 75,945 |
| Public safety | 298,286 |
| Highways and streets | 1,056,945 |
| Culture and recreation | <u>139,540</u> |

| | |
|---|----------------------------|
| DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES | <u>\$ 1,570,716</u> |
|---|----------------------------|

5. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; illnesses of employees; and natural disasters. During the fiscal year ended April 30, 2015, the Village became self-insured for employee health insurance. All other risks are provided for through participation in a public entity risk pool. The Village has established internal service funds to account for these activities as they relate to governmental activities/fund, while self-insurance activity related to enterprise funds is accounted for directly in the Waterworks and Sewerage Fund. Each participating governmental fund makes payments to the Medical Self-Insurance Fund and the Risk Management Fund. Such payments are displayed on the financial statements as revenues and expenditures/expenses to the extent that the charge to the other funds is based on the actual expenses of the fund plus an additional amount for catastrophic losses. Payments in excess of these amounts, if any, are reported as transfers. There were no significant changes in insurance coverages with private insurance companies from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

The Village has contracted with a third party administrator (TPA) to administer the employee health insurance program and to review and process claims. In addition, the Village has contracted with third party carriers for specific and aggregate stop loss coverage to limit the Village's exposure to losses. Losses have not exceeded coverages for the last three years. The specific and aggregate stop loss coverage is as follows:

Health Insurance - The Village is self-insured with a specific stop loss of \$100,000 per individual per year.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

5. RISK MANAGEMENT (Continued)

The Village has recorded a liability for claims which were reported but unpaid as of the end of the fiscal year as well as an estimated liability for claims incurred but not reported. A reconciliation of claims payable for the eight months ended December 31, 2016 is as follows:

| | |
|-----------------------------------|--------------------------|
| CLAIMS PAYABLE, MAY 1, 2015 | \$ 231,860 |
| Add claims incurred | 1,959,866 |
| Less claims paid | <u>2,001,463</u> |
| CLAIMS PAYABLE, MAY 1, 2016 | 190,263 |
| Add claims incurred | 1,601,254 |
| Less claims paid | <u>1,584,145</u> |
| CLAIMS PAYABLE, DECEMBER 31, 2016 | <u><u>\$ 207,372</u></u> |

Intergovernmental Risk Management Agency

The Village participates in the Intergovernmental Risk Management Agency (IRMA). IRMA is an organization of municipalities and special districts in Northeastern Illinois which have formed an association under the Illinois Intergovernmental Cooperations Statute to pool its risk management needs. The agency administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

The Village's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. Each member assumes the first \$2,500 of each occurrence and IRMA has a mix of self-insurance and commercial insurance at various amounts about that level.

Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The Village does not exercise any control over the activities of IRMA beyond its representation on the Board of Directors.

Initial contributions are determined each year based on the individual member's eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

6. SHORT-TERM DEBT

Changes in Short-Term Liabilities

During the eight months ended December 31, 2016, the following changes occurred in short-term liabilities:

| | Fund Debt Retired By | Balances May 1 | Additions | Reductions | Balances December 31 | Current Portion |
|---|-------------------------|-------------------|---------------------|---------------------|-------------------------|--------------------|
| General Obligation Bond Series of 2016 (\$1,076,000 dated June 13, 2016; matured October 5, 2016; payable in annual installments; interest rate of 3.50%) | Debt Service | \$ - | \$ 1,076,000 | \$ 1,076,000 | \$ - | \$ - |
| TOTAL | | \$ - | \$ 1,076,000 | \$ 1,076,000 | \$ - | \$ - |

The General Obligation Series 2016 Bonds were issued to refund certain outstanding general obligation alternate bonds.

7. LONG-TERM DEBT

a. General Obligation TIF Alternate Revenue Bonds

The Village has issued TIF Alternate Revenue Source Bonds for which they have pledged future revenue streams. The Series 2009A, 2014A, 2015A and 2016A General Obligation TIF Alternate Revenue Source Bonds, issued for various TIF improvements, are payable from a pledge of the Village's sales tax revenues, with a remaining total pledge of \$33,902,511 and the bonds maturing between December 15, 2017 and December 15, 2034. During the current fiscal year, the pledge of sales tax revenues of \$1,307,433 was approximately 27.9% of total sales tax revenues.

General obligation tax increment financing alternate revenue bonds currently outstanding are as follows:

| Issue | Fund Debt Retired By | Balances May 1 | Additions | Reductions | Balances December 31 | Current Portion |
|---|-------------------------|-------------------|-----------|--------------|-------------------------|--------------------|
| General Obligation TIF Alternate Revenue Bonds Series of 2009A (\$7,830,000 dated April 1, 2009; maturing February 1, 2029; payable in annual installments; interest rates from 3.30% to 6.15%) | TIF Debt Service | \$ 7,285,000 | \$ - | \$ 5,990,000 | \$ 1,295,000 | \$ 240,000 |

b. General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the Village. General obligation bonds currently outstanding are as follows:

| Issue | Fund Debt Retired By | Balances May 1 | Additions | Reductions | Balances December 31 | Current Portion |
|--|----------------------|---------------------|-------------|-------------|----------------------|-------------------|
| General Obligation Bond Series of 2008A (\$4,265,000 dated August 1, 2008; maturing January 1, 2020; payable in annual installments; interest rates from 3.5% to 5.0%) | Debt Service | \$ 1,885,000 | \$ - | \$ - | \$ 1,885,000 | \$ 435,000 |
| TOTAL | | \$ 1,885,000 | \$ - | \$ - | \$ 1,885,000 | \$ 435,000 |

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. LONG-TERM DEBT (Continued)

c. General Obligation Waterworks and Sewerage Alternate Revenue Bonds

The Village has issued General Obligation Waterworks and Sewerage Alternate Revenue Source Bonds for which they have pledged future revenue streams. The Series 2013A and 2016B General Obligation Waterworks and Sewerage Alternate Revenue Source Bonds, issued for various water and sewerage system improvements, are payable from a pledge of the Village's water and sewerage fees, with a remaining total pledge of \$4,548,106 and the bonds maturing between December 15, 2017 and December 15, 2026. During the current fiscal year, the pledge of water and sewerage fees of \$516,500 was approximately 14.9% of total water and sewerage fees.

General obligation waterworks and sewerage alternate revenue bonds currently outstanding are as follows:

| Issue | Fund Debt Retired By | Balances May 1 | Additions | Reductions | Balances December 31 | Current Portion |
|---|-------------------------------|---------------------|---------------------|-------------------|-------------------------|--------------------|
| General Obligation Waterworks and Sewerage System Alternate Revenue Bonds Series of 2013A (\$3,800,000 dated September 4, 2013; maturing December 15, 2023; payable in annual installments; interest rates from 3% to 4%) | Waterworks and Sewerage | \$ 3,390,000 | \$ - | \$ 400,000 | \$ 2,990,000 | \$ 400,000 |
| General Obligation Waterworks and Sewerage System Alternate Revenue Bonds Series of 2016B (\$1,000,000 dated August 1, 2016; maturing December 15, 2026; payable in annual installments; interest rate of 2%) | Waterworks and Sewerage | - | 1,000,000 | - | 1,000,000 | 90,000 |
| TOTAL | | \$ 3,390,000 | \$ 1,000,000 | \$ 400,000 | \$ 3,990,000 | \$ 490,000 |

Water and sewerage fees are pledged for the retirement of the 2013A and 2016B Alternate Revenue Bonds. Property taxes have been abated to date.

d. Illinois EPA Loans

The Village entered into loan agreements with the Illinois EPA for the construction of waterworks and sewerage capital assets. Illinois EPA loans currently outstanding are as follows:

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

7. LONG-TERM DEBT (Continued)

h. Defeased Debt

The Village has defeased the General Obligation Bonds (Alternative Revenue Source) Series 2009A, 2009B, 2009C, 2011B, 2011C and 2012 by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for defeased bonds are not included in the Village's financial statements. Outstanding bonds for these issues are considered defeased. A total of \$15,570,000 remains outstanding at December 31, 2016.

i. Advance Refunding

On May 16, 2016, the Village issued \$6,785,000 General Obligation Refunding Bonds (Alternate Revenue Source), Series 2016A to advance 5,990,000 of General Obligation Bonds (Alternate Revenue Source), Series 2009A which will be called and paid on February 1, 2019. As a result of the refunding, the Village realized a cash flow savings of approximately \$889,399 and an economic gain of \$646,980.

j. Legal Debt Margin

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes provides, "...no municipality having a population of less than 500,000 shall become indebted in any manner or for any purpose, to an amount, including existing indebtedness in the aggregate exceeding 8.625% on the value of the taxable property therein, to be ascertained by the last assessment for state and county purposes, previous to the incurring of the indebtedness or, until January 1, 1983, if greater, the sum that is produced by multiplying the municipality's 1978 equalized assessed valuation by the debt limitation percentage in effect on January 1, 1979."

| | |
|---|-----------------------------|
| ASSESSED VALUATION - 2015 | <u>\$ 794,190,580</u> |
| Legal debt limit - 8.625% of assessed value | \$ 68,498,938 |
| Amount of debt applicable to debt limit: | |
| General obligation bonds | <u>1,885,000</u> |
| LEGAL DEBT MARGIN | <u><u>\$ 66,613,938</u></u> |

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

8. INTERFUND ASSETS/LIABILITIES

a. Interfund Transfers

| Transfers From | Transfers To | Amount |
|--------------------|----------------------------|---------------------|
| General | Capital Improvements | \$ 1,000,000 |
| General | Special Events | 114,600 |
| General | Equipment Replacement Fund | 310,000 |
| Hotel Tax | Special Events | 30,000 |
| TIF Tax Allocation | TIF Debt Service | 732,000 |
| TOTAL | | <u>\$ 2,186,600</u> |

The purpose of significant transfers from/to other funds is as follows:

- \$1,000,000 transferred from the General Fund to the Capital Improvements Fund to fund new capital projects.
- \$114,600 transferred from the General Fund to the Special Events Fund to fund the administration of multiple events held by the Village.
- \$310,000 transferred from the General Fund to the Equipment Replacement Fund for replacement of equipment.
- \$30,000 transferred from the Hotel Tax Fund to the Special Events Fund to fund the administration of multiple events held by the Village.
- \$732,000 transferred from the TIF Tax Allocation Fund to the TIF Debt Service Fund for principal and interest payments on general obligation TIF alternate revenue and TIF alternate revenue bonds.

b. Due To/From Other Funds

Due to/from other funds at December 31, 2016 consisted of the following:

| Receivable Fund | Payable Fund | Amount |
|----------------------------|-------------------------|---------------------|
| General | Waterworks and Sewerage | \$ 200,230 |
| General | Medical Self Insurance | 3,407 |
| Medical Self Insurance | General | 55,000 |
| Performance Escrow Fund | General | 6,473 |
| Capital Improvements | General | 350,000 |
| Equipment Replacement Fund | General | 310,000 |
| Capital Improvements | Performance Escrow Fund | 236,850 |
| Waterworks and Sewerage | Special Service Area | 10,937 |
| TOTAL | | <u>\$ 1,172,897</u> |

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

8. INTERFUND ASSETS/LIABILITIES (Continued)

b. Due To/From Other Funds (Continued)

The due to/from other funds represent temporary financing that will be repaid within one year.

c. Advance To/From Other Funds

Advances to/from other funds at December 31, 2016 consisted of the following:

| Receivable Fund | Payable Fund | Amount |
|-----------------|------------------|---------------------|
| General | TIF Debt Service | \$ 1,425,000 |
| General | Downtown TIF | 185,000 |
| General | Downtown TIF #2 | <u>45,000</u> |
| TOTAL | | <u>\$ 1,655,000</u> |

The advances to/from other funds represent amounts advanced to fund TIF debt service due to cash flow issues in the fund. This amount will be repaid.

9. CONTINGENT LIABILITIES

a. Litigation

The Village is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Village's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Village.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the Village expects such amounts, to be immaterial.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS

a. Plan Description

In addition to providing the pension benefits described, the Village provides postemployment health care benefits (OPEB) for retired employees through a single-employer defined benefit plan. The benefits, benefit levels, employee contributions and employer contributions are governed by the Village and can be amended by the Village through its personnel manual and union contracts. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the Village's governmental and business-type activities.

b. Benefits Provided

The Village provides postemployment health care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the Village's retirement plans. Elected officials are eligible for benefits if they qualify for retirement through the Illinois Municipal Retirement Fund.

All health care benefits are provided through the Village's health insurance plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental, nervous and substance abuse care; vision care; dental care; and prescriptions. Upon a retiree reaching 65 years of age, Medicare becomes the primary insurer and the Village's plan becomes secondary.

All retirees contribute 100% of the actuarially determined premium to the plan. For the eight months ended December 31, 2016, retirees contributed \$134,433. Active employees do not contribute to the plan until retirement.

c. Membership

At April 30, 2014 (the most recent valuation performed), membership consisted of:

| | |
|--|-----------------|
| Retirees and beneficiaries currently receiving benefits | 15 |
| Terminated employees entitled to benefits but not yet receiving them | - |
| Active employees | <u>153</u> |
| TOTAL | <u>168</u> |
| Participating employers | <u><u>1</u></u> |

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

d. Funding Policy

The Village is not required to and currently does not advance fund the cost of benefits that will become due and payable in the future. Active employees do not contribute to the plan until retirement.

e. Annual OPEB Costs and Net OPEB Obligation

The Village first had an actuarial valuation performed for the plan as of May 1, 2009 to determine the funded status of the plan as of that date as well as the employer's annual required contribution for the fiscal year ended April 30, 2009. The Village's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the last three years was as follows:

| Fiscal Year Ended | Annual OPEB Cost | Employer Contributions | Percentage of Annual OPEB Cost Contributed | Net OPEB Obligation |
|-------------------------|------------------------|---------------------------|---|------------------------|
| April 30, 2015 | \$ 156,146 | \$ 132,120 | 84.60% | \$ 196,424 |
| April 30, 2016 | 156,306 | 151,838 | 97.10% | 200,892 |
| December 31, 2016 | 99,702 | 101,225 | 101.53% | 199,369 |

The net OPEB obligation as of December 31, 2016 was calculated as follows:

| | |
|--|--------------------------|
| Annual required contribution | \$ 103,331 |
| Interest on net OPEB obligation | 5,204 |
| Adjustment to annual required contribution | <u>(8,833)</u> |
| Annual OPEB cost | 99,702 |
| Contributions made | <u>101,225</u> |
| Decrease in net OPEB obligation | (1,523) |
| Net OPEB obligation, beginning of year | <u>200,892</u> |
| NET OPEB OBLIGATION, END OF YEAR | <u><u>\$ 199,369</u></u> |

10. OTHER POSTEMPLOYMENT BENEFITS (Continued)

e. Annual OPEB Costs and Net OPEB Obligation (Continued)

Funded Status and Funding Progress - The funded status of the plan as of April 30, 2014 was as follows (the most recent valuation performed):

| | | |
|---|----|-----------|
| Actuarial accrued liability (AAL) | \$ | 2,583,239 |
| Actuarial value of plan assets | | - |
| Unfunded actuarial accrued liability (UAAL) | \$ | 2,583,239 |
| Funded ratio (actuarial value of plan assets/AAL) | | 0.00% |
| Covered payroll (active plan members) | | N/A |
| UAAL as a percentage of covered payroll | | N/A |

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to financial statements, presents multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the April 30, 2014 actuarial valuation (most recent valuation date), the entry-age normal actuarial cost method was used. The actuarial assumptions included 4% investment rate of return and a healthcare cost trend rate of 7% with an ultimate rate of 5%. Both rates include a 3% inflation assumption and 4% wage inflation assumption. The actuarial value of assets was not determined as the Village has not advance funded its obligation. The plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open 30-year basis.

11. DEFINED BENEFIT PENSION PLANS

The Village contributes to three defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer public employee retirement system; the Police Pension Plan, which is a single-employer pension plan; and the Firefighters' Pension Plan, which is also a single-employer pension plan. The benefits, benefit levels, employee contributions and employer contributions for all three plans are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly. Neither of the pension funds issue separate reports on the pension plans. However, IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

a. Plan Descriptions

Illinois Municipal Retirement Fund

Plan Administration

All employees (other than those covered by the Police Pension and Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

Plan Membership

At December 31, 2016, IMRF membership consisted of:

| | |
|---|-------|
| Inactive employees or their beneficiaries | |
| currently receiving benefits | 102 |
| Inactive employees entitled to but not yet receiving benefits | 94 |
| Active employees | 71 |
| | <hr/> |
| TOTAL | 267 |
| | <hr/> |

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Benefits Provided

All employees (other than those covered by the Police Pension and Firefighters' Pension Plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

IMRF also provides death and disability benefits. These benefit provisions and all are established by state statute.

Contributions

Participating members are required to contribute 4.5% of their annual salary to IMRF. The Village is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution for the eight months ended December 31, 2016 was 12.73% of covered payroll.

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions

The Village's net pension liability was measured as of December 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

| | |
|----------------------------|-------------------|
| Actuarial valuation date | December 31, 2016 |
| Actuarial cost method | Entry-age normal |
| Assumptions | |
| Inflation | 2.75% |
| Salary increases | 3.75% to 14.50% |
| Interest rate | 7.50% |
| Cost of living adjustments | 3.00% |
| Asset valuation method | Market value |

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Illinois Municipal Retirement Fund (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, IMRF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension Liability

| | (a) Total Pension Liability | (b) Plan Fiduciary Net Position | (a) - (b) Net Pension Liability |
|--|-----------------------------------|---------------------------------------|---------------------------------------|
| BALANCES AT JANUARY 1, 2016 | \$ 31,834,989 | \$ 27,171,507 | \$ 4,663,482 |
| Changes for the period | | | |
| Service cost | 512,260 | - | 512,260 |
| Interest | 2,351,795 | - | 2,351,795 |
| Difference between expected and actual experience | (340,738) | - | (340,738) |
| Changes in assumptions | (83,331) | - | (83,331) |
| Employer contributions | - | 628,101 | (628,101) |
| Employee contributions | - | 233,460 | (233,460) |
| Net investment income | - | 1,863,659 | (1,863,659) |
| Benefit payments and refunds | (1,300,032) | (1,300,032) | - |
| Other (net transfer) | - | (27,607) | 27,607 |
| Net changes | 1,139,954 | 1,397,581 | (257,627) |
| BALANCES AT DECEMBER 31, 2016 | \$ 32,974,943 | \$ 28,569,088 | \$ 4,405,855 |

Changes in assumptions related to mortality were made since the prior measurement date. Additionally, the discount rate was changed from 7.48% to 7.50%.

Illinois Municipal Retirement Fund (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the eight months ended December 31, 2016, the Village recognized pension expense of \$830,800.

At December 31, 2016, the Village reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Difference between expected and actual experience | \$ - | \$ 387,070 |
| Changes in assumption | 17,210 | 58,319 |
| Net difference between projected and actual earnings on pension plan investments | 1,271,566 | - |
| TOTAL | <u>\$ 1,288,776</u> | <u>\$ 445,389</u> |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to IMRF will be recognized in pension expense as follows:

| <u>Year Ending December 31,</u> | |
|-------------------------------------|--------------------------|
| 2017 | \$ 192,983 |
| 2018 | 247,858 |
| 2019 | 371,200 |
| 2020 | 31,346 |
| 2021 | - |
| Thereafter | - |
| TOTAL | <u><u>\$ 843,387</u></u> |

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 7.5% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.5%) or 1 percentage point higher (8.5%) than the current rate:

| | 1% Decrease (6.5%) | Current Discount Rate (7.5%) | 1% Increase (8.5%) |
|-----------------------|-----------------------|------------------------------------|-----------------------|
| Net pension liability | \$ 8,928,627 | \$ 4,405,855 | \$ 752,428 |

Police Pension Plan

Plan Administration

Police sworn personnel are covered by the Police Pension Plan. Although this is a single-employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Village's Mayor, one member is elected by pension beneficiaries and two members are elected by active police employees.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Plan Membership

At December 31, 2016, the measurement date, membership consisted of:

| | |
|--|------------------|
| Inactive plan members currently receiving benefits | 22 |
| Inactive plan members entitled to but not yet receiving benefits | - |
| Active plan members | <u>33</u> |
| TOTAL | <u><u>55</u></u> |

Benefits Provided

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officers' salary for pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Benefits Provided (Continued)

and receive a reduced benefit (i.e., ½% for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or ½ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Employees are required by ILCS to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. Effective January 1, 2011, the Village has until the year 2040 to fund 90% of the past service cost for the Police Pension Plan. However, the Village has chosen to fund 100% of the past service cost by 2040. For the eight months ended December 31, 2016, the Village's contribution was 50.40% of covered payroll.

Investment Policy

ILCS limits the Police Pension Fund's (the Fund) investments to those allowable by ILCS and require the Fund's Board of Trustees to adopt an investment policy which can be amended by a majority vote of the Board of Trustees. The Fund's investment policy authorizes the Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, direct obligations of the State of Israel, investment grade corporate bonds and Illinois Funds. The Fund may also invest in certain non-U.S. obligations; interest-bearing bonds of the State of Illinois; interest-bearing bonds or tax anticipation warrants of any county, township or municipal corporation of the State of Illinois; mutual funds; and corporate equity securities and real estate investment trusts. During the year, there were no changes to the Fund's investment policy.

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Investment Policy (Continued)

The Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

| Asset Class | Target | Long-Term Expected Real Rate of Return |
|-----------------------------|--------|--|
| Fixed income | 45.00% | 1.20% |
| Large cap domestic equities | 38.50% | 6.40% |
| Small cap domestic equities | 11.00% | 8.40% |
| International equities | 5.50% | 6.70% |
| Cash and cash equivalents | 0.00% | 0.00% |

ILCS limits the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in March 2015 in which best estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major assets class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return excluding inflation for each major asset class included in the Fund's target asset allocation as of December 31, 2016 are listed in the table above.

Investment Valuations

All investments in the plan are stated at fair value and are recorded as of the trade date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Illinois Funds, an investment pool created by the state legislature under the control of the State Treasurer, is a money market mutual fund that maintains a \$1 per share value.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Concentrations

There are no significant investments (other than United States Government guaranteed obligations) in any one organization that represent 5% or more of the Plan's investments.

Investment Rate of Return

For the eight months ended December 31, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 4.73%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

Fair Value Measurements

The Fund has the following recurring fair value measurements as of December 31, 2016. The U.S. Treasury obligations, money market mutual funds, and equity mutual funds are valued using quoted prices in active markets for identical assets (Level 1 inputs). The U.S. agency securities and state and local obligations are valued using quoted matrix pricing models (Level 2 inputs).

Interest Rate Risk

The following table presents the investments and maturities of the Fund's debt securities as of December 31, 2016:

| Investment Type | Fair Value | Investment Maturities (in Years) | | | |
|-----------------------------|---------------------|----------------------------------|---------------------|---------------------|-------------------|
| | | Less than 1 | 1-5 | 6-10 | Greater than 10 |
| U.S. Treasury obligations | \$ 1,144,637 | \$ 200,742 | \$ 817,157 | \$ 126,738 | \$ - |
| U.S. agency securities | 6,015,940 | - | 1,724,445 | 4,291,495 | - |
| State and local obligations | 1,375,759 | 304,682 | 397,024 | 568,326 | 105,727 |
| TOTAL | \$ 8,536,336 | \$ 505,424 | \$ 2,938,626 | \$ 4,986,559 | \$ 105,727 |

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Police Pension Plan (Continued)

Interest Rate Risk (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for expected current cash flows. The investment policy does not limit the maximum maturity length of investments in the Fund.

Credit Risk

The Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government, securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and investment grade corporate bonds rated at or above BBB- by Standard and Poor's, Baa3 by Moody's and BBB- by Fitch by at least two of the three rating agencies. The agency securities are rated AA+ by Standard and Poor's and Aaa by Moody's. The municipal bonds are rated at or above AA+ by Standard and Poor's and Aa3 or above by Moody's.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name. The money market mutual funds and equity mutual funds are not subject to custodial credit risk.

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2016 using the following actuarial methods and assumptions.

| | |
|----------------------------|----------------------------------|
| Actuarial valuation date | December 31, 2016 |
| Actuarial cost method | Entry-age normal |
| Assumptions | |
| Inflation | 2.50% |
| Salary increases | 3.50% |
| Interest rate | 6.75% |
| Cost of living adjustments | 3.00% (Tier 1) 1.25% (Tier 2) |
| Asset valuation method | Market |

Mortality rates were based on the RP 2014 Mortality Table (BCHA) projected to 2016 using improvement scale MP-2016. The other non-economic actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated September 26, 2012.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Discount Rate Sensitivity

The following is a sensitive analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the Village calculated using the discount rate of 6.75% as well as what the Village's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.75%) or 1 percentage point higher (7.75%) than the current rate:

| | 1% Decrease (5.75%) | Current Discount Rate (6.75%) | 1% Increase (7.75%) |
|-----------------------|---------------------------|-------------------------------------|---------------------------|
| Net pension liability | \$ 28,312,524 | \$ 21,825,901 | \$ 16,577,028 |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the eight months ended December 31, 2016, the Village recognized police pension expense of \$1,796,576. At December 31, 2016, the Village reported deferred outflows of resources and deferred inflows of resources related to the police pension from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|--------------------------------------|-------------------------------------|
| Difference between expected and actual experience | \$ - | \$ 2,833,380 |
| Changes in assumption | 2,153,835 | - |
| Net difference between projected and actual earnings on pension plan investments | 875,675 | - |
| TOTAL | \$ 3,029,510 | \$ 2,833,380 |

| TOTAL | <u>\$ 196,130</u> |

Firefighters' Pension Plan

Plan Administration

Firefighter sworn personnel are covered by the Firefighters' Pension Plan, a single-employer defined benefit pension plan sponsored by the Village. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/4-101) and may be amended only by the Illinois legislature. The Village accounts for the Firefighters' Pension Plan as a pension trust fund.

The plan is governed by a five-member Board of Trustees. Two members of the Board of Trustees are appointed by the Village's Mayor, one member is elected by pension beneficiaries and two members are elected by active firefighter employees.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense and liability when due and payable.

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Plan Membership

At December 31, 2016, the measurement date, membership consisted of:

| | |
|--|------------------|
| Inactive plan members currently receiving benefits | 18 |
| Inactive plan members entitled to but not yet receiving benefits | 4 |
| Active plan members | <u>56</u> |
| TOTAL | <u><u>78</u></u> |

Benefits Provided

The following is a summary of benefits of the plan as provided for in ILCS:

The Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits. Tier 1 employees (those hired prior to January 1, 2011) attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit equal to one-half of the salary attached to the rank held at the date of retirement. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a covered employee who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 employees (those hired on or after January 1, 2011) attaining the age of 55 or older with ten or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the firefighter during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Firefighters' salary for pension purposes is capped at \$106,800, plus the lesser of $\frac{1}{2}$ of the annual change in the Consumer Price Index or 3% compounded. The annual benefit shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least ten years may retire at or after age 50 and

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Benefits Provided (Continued)

receive a reduced benefit (i.e., $\frac{1}{2}\%$ for each month under 55). The monthly benefit of a Tier 2 firefighter shall be increased annually at age 60 on the January 1st after the firefighter retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3% or $\frac{1}{2}$ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions

Employees are required by ILCS to contribute 9.455% of their base salary to the Firefighters' Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plan, as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the Village to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. However, the Village has chosen to fund 100% of the past service cost by 2040. For the eight months ended December 31, 2016, the Village's contribution was 35.90% of covered payroll.

Investment Policy

ILCS limits the Firefighters' Pension Fund's (the Fund) investments to those allowable by ILCS and require the Fund's Board of Trustees to adopt an investment policy which can be amended by a majority vote of the Board of Trustees. The Fund's investment policy authorizes the Fund to make deposits/invest in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. agencies, money market mutual funds with portfolios of securities issued or guaranteed by the United States Government or agreements to repurchase these same obligations, investment grade corporate bonds and Illinois Funds. The Fund may also invest in certain non-U.S. obligations; interest-bearing bonds of the State of Illinois; interest-bearing bonds or tax anticipation warrants of any county, township or municipal corporation of the State of Illinois; mutual funds; and corporate equity securities and real estate investment trusts. During the year, there were no changes to the Fund's investment policy.

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Investment Policy (Continued)

The Fund's investment policy in accordance with ILCS establishes the following target allocation across asset classes:

| Asset Class | Target | Long-Term Expected Real Rate of Return |
|---------------------------|--------|--|
| Fixed income | 45.00% | 1.20% |
| Large cap domestic equity | 38.50% | 6.40% |
| Small cap domestic equity | 11.00% | 8.40% |
| International equities | 5.50% | 6.70% |

ILCS limits the Fund's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund. The blended asset class is comprised of all other asset classes to allow for rebalancing the portfolio.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in which best estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major assets class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates or arithmetic real rates of return excluding inflation for each major asset class included in the Fund's target asset allocation as of December 31, 2016 are listed in the table above.

Concentrations

There are no significant investments (other than United States Government guaranteed obligations) in any one organization that represent 5% or more of the Fund's investments.

VILLAGE OF LAKE ZURICH, ILLINOIS
NOTES TO FINANCIAL STATEMENTS (Continued)

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Investment Rate of Return

For the eight months ended December 31, 2016, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 5.05%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of a bank's failure, the Fund's deposits may not be returned to them. The Fund's investment policy requires all bank balances to be covered by federal depository insurance.

Fair Value Measurements

The Fund has the following recurring fair value measurements as of December 31, 2016. The money market mutual funds, mutual funds, and common stock are valued using quoted prices in active markets for identical assets (Level 1 inputs). The U.S. Treasury obligations, U.S. agency securities, state and local obligations and corporate bonds are valued using quoted matrix pricing models (Level 2 inputs).

Interest Rate Risk

The following table presents the investments and maturities of the Fund's debt securities as of December 31, 2016:

| Investment Type | Fair Value | Investment Maturities (in Years) | | | |
|-----------------------------|----------------------|----------------------------------|---------------------|---------------------|-----------------|
| | | Less than 1 | 1-5 | 6-10 | Greater than 10 |
| U.S. Treasury obligations | \$ 468,185 | \$ 411,562 | \$ 56,623 | \$ - | \$ - |
| U.S. agency securities | 5,014,296 | 563,356 | 2,630,910 | 1,816,043 | 3,987 |
| State and local obligations | 1,064,667 | - | 274,374 | 790,293 | - |
| Corporate bonds | 5,022,386 | 150,064 | 2,757,623 | 2,114,699 | - |
| TOTAL | \$ 11,569,534 | \$ 1,124,982 | \$ 5,719,530 | \$ 4,721,035 | \$ 3,987 |

11. DEFINED BENEFIT PENSION PLANS (Continued)

a. Plan Descriptions (Continued)

Firefighters' Pension Plan (Continued)

Interest Rate Risk (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity for operating funds and maximizing yields for funds not needed for expected current cash flows. The investment policy does not limit the maximum maturity length of investments in the Fund.

Credit Risk

The Fund limits its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, by primarily investing in obligations guaranteed by the United States Government, securities issued by agencies of the United States Government that are explicitly or implicitly guaranteed by the United States Government and investment grade corporate bonds rated at or above BBB- by Standard and Poor's, Baa3 by Moody's and BBB- by Fitch by at least two of the three rating agencies. The agency securities are rated AA+ by Standard and Poor's and Aaa by Moody's. The municipal bonds are rated at or above AA by Standard and Poor's and Aa2 or above by Moody's. The corporate bonds are rated at or above BBB by Standard and Poor's and Baa2 or above by Moody's.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the Fund will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the Fund requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held by a third party acting as the Fund's agent separate from where the investment was purchased in the Fund's name. Money market mutual funds and mutual funds are not subject to custodial credit risk.

Firefighters' Pension Plan (Continued)

Actuarial Assumptions

The total pension liability above was determined by an actuarial valuation performed as of December 31, 2016 using the following actuarial methods and assumptions.

| | |
|----------------------------|----------------------------------|
| Actuarial valuation date | December 31, 2016 |
| Actuarial cost method | Entry-age Normal |
| Assumptions | |
| Inflation | 2.50% |
| Salary increases | 3.50% |
| Interest rate | 6.75% |
| Cost of living adjustments | 3.00% (Tier 1) 1.25% (Tier 2) |
| Asset valuation method | Market |

Mortality rates were based on the RP 2014 Mortality Table (BCHA) projected to 2016 using improvement scale MP-2016. The other non-economic actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study conducted by the Illinois Department of Insurance dated September 26, 2012.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

13. TAX ABATEMENTS

The Village rebates sales tax in order to recruit, retain, or improve local business facilities or their supporting public infrastructure under certain circumstances. The terms of these rebate arrangements are specified within written agreements with the businesses and governmental entities concerned.

The Village has entered into economic incentive agreements with three commercial entities, as well as with two other government agencies, whereby the Village has agreed to rebate a portion of sales taxes generated by particular businesses to each entity. Each agreement for rebate with the commercial entities is limited to a specified time period and are limited to sales taxes generated by the commercial entity. The commercial rebates are paid monthly or quarterly, depending on specific terms, with the agreements expiring between 10 and 30 years after commencement. The agreements with the government agencies exist in perpetuity based on an intergovernmental agreement to rebate portions of sales taxes generated by any businesses on particular properties. These payments are made monthly in accordance with the agreements.

As of December 31, 2016, the Village has an accrued rebate liability of \$263,258 for amounts collected by the state but not yet paid to the Village and/or due to the other entities. Of this amount, \$204,839 is due to commercial entities and \$58,419 to governmental entities. For the fiscal year-to-date, the Village recorded \$567,116 in payment across all sales tax rebate agreements.

VILLAGE OF LAKE ZURICH, ILLINOIS

SCHEDULE OF EMPLOYER CONTRIBUTIONS ILLINOIS MUNICIPAL RETIREMENT FUND

Last Two Fiscal Years

| FISCAL YEAR ENDED | April 30, 2016 | December 31, 2016* |
|---|---------------------------|-------------------------------|
| Actuarially determined contribution | \$ 613,312 | \$ 431,173 |
| Contributions in relation to the actuarially determined contribution | 613,312 | 431,173 |
| CONTRIBUTION DEFICIENCY (Excess) | \$ - | \$ - |
| Covered-employee payroll | \$ 5,139,246 | \$ 3,387,062 |
| Contributions as a percentage of covered-employee payroll | 11.93% | 12.73% |

* The Village changed its fiscal year end from April 30 to December 31 for the period December 31, 2016.

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuations as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percent of pay, closed and the amortization period was 27 years; the asset valuation method was five-year smoothed market; and the significant actuarial assumptions were an investment rate of return at 7.50% annually, projected salary increases assumption of 3.75% to 14.50% compounded annually and postretirement benefit increases of 3.00% compounded annually.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

VILLAGE OF LAKE ZURICH, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2016

BUDGETS

Budgets are adopted on a basis consistent with GAAP. Annual appropriated budgets are adopted (at the fund level) for the General, Special Revenue (except the Foreign Fire Insurance Tax), Debt Service, Capital Projects (except Downtown TIF), Enterprise, Internal Service and Pension Trust Funds. The annual appropriated budget is legally enacted and provides for a legal level of control at the department level, or, where no departmental segregation of a fund exists, the fund level. All annual appropriations lapse at fiscal year end.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to restrict that portion of the applicable appropriation - is utilized in the governmental funds. Material encumbrances outstanding at year end, if any, are reported as restrictions of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

All departments of the Village submit requests for appropriation to the Village's manager so that a budget may be prepared. The budget is prepared by fund and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and can add to, subtract from or change appropriations; but cannot change the form of the budget.

Management cannot amend the budget for individual funds without seeking the approval of the governing body.

Expenditures cannot legally exceed budgeted appropriations at the fund or department (General Fund) level and the Board of Trustees must approve any over expenditures of appropriation or transfers of appropriated amounts. During the year, two supplementary appropriations were necessary.

The following funds had an excess of actual expenditures over budget for the year ended December 31, 2016:

| <u>Fund</u> | <u>Excess</u> |
|--|---------------|
| Equipment Replacement | \$ 16,383 |
| Non-Home Rule Sales Tax Capital Projects | 9,961 |
| TIF #3 | 16,712 |
| TIF Debt Service | 30,351 |
